**JOINT APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U 338-E) AND
SAN DIEGO GAS & ELECTRIC COMPANY (U 902-E) FOR THE 2012 NUCLEAR
DECOMMISSIONING COST TRIENNIAL PROCEEDING**

In compliance with Ordering Paragraph No. 7 of California Public Utilities Commission (Commission) Decision (D.) 95-07-055¹ and Ordering Paragraph Nos. 6-8 of D.07-01-003,² as modified by the filing date set in the Executive Director's letter dated July 5, 2011, to Southern California Edison Company (SCE),³ SCE and San Diego Gas & Electric Company (SDG&E) (hereinafter collectively referred to as the "Utilities"), hereby submit their Joint Application for the 2012 Nuclear Decommissioning Cost Triennial Proceeding (NDCTP).

¹ In D.95-07-055, in the Commission's OII 86 Re Present and Alternative Methods of Financing Nuclear Facility Decommissioning Costs, the Commission ordered all electric Utilities that own nuclear generating facilities, including SCE and SDG&E, to update their "engineering cost studies and ratepayer contribution analysis" for nuclear decommissioning costs every three years. D.95-07-055, Ordering Paragraph 7, (*mimeo*), p. 30.

² In D.07-01-003, the Commission ordered SCE, SDG&E, and Pacific Gas and Electric Company to serve additional testimony in their triennial review regarding personnel qualifications, low level radioactive waste storage forecasts, and an appropriate contingency factor for inclusion in the decommissioning revenue requirements. D.07-01-003, Ordering Paragraph Nos. 6-8, (*mimeo*), pp. 33-34.

³ Mr. Clanon's July 5, 2011 letter to SCE granted the request of SCE, San Diego Gas & Electric Company, and Pacific Gas and Electric Company to file their applications on December 14, 2012. On December 12, 2012, Mr. Clanon granted the utilities an additional one-week extension of time, setting the filing date for the instant application as December 21, 2012.

I.

THIS JOINT APPLICATION IS IN COMPLIANCE WITH COMMISSION DECISIONS

A. Summary of Request

In this Joint Application, the Utilities request the Commission:

(1) Find the \$14.9 million (100% share, 2011\$) cost of San Onofre Nuclear Generating Station (SONGS) Unit 1 Decommissioning Work completed between January 1, 2009 and December 31, 2012 is reasonable;

(2) Find that the updated \$182.3 million (100% share, 2011\$) SONGS 1 decommissioning cost estimate for the Remaining Work is reasonable; and

(3) Find the updated \$4,119.0 million (100% share, 2011\$) SONGS 2 & 3 decommissioning cost estimate reasonable.

In addition, SCE requests the Commission:

(1) Find the updated \$513.5 million (SCE share, 2010\$) Palo Verde decommissioning cost estimate reasonable; and

(2) Authorize rate recovery of its increased contribution of \$40.98 million to its Nuclear Decommissioning Trust Funds for SONGS Units 2 & 3 through the Nuclear Decommissioning Cost Charge, effective January 1, 2014. The associated revenue requirement associated with this contribution is \$41.44 million.

In addition to the foregoing requests by SCE, SDG&E further requests that the Commission:

(1) Enter a finding that the updated estimate of SDG&E's ratable share of the decommissioning costs for SONGS Units 1, 2 and 3 of \$36.46 million, \$400.625 million, and \$423.093 million, respectively, is reasonable;

(2) Authorize a revenue requirement for SDG&E's annual contribution to its Nuclear Decommissioning Trust Fund for SONGS Units 1, 2 and 3 in the amount of \$16.43 million, effective January 1, 2014;

(3) Authorize SDG&E to amortize the 2013 forecasted NDAM undercollection in rates for a twelve-month period beginning January 1, 2014; and

(3) Authorize SDG&E to file an advice letter within fifteen (15) days after the effective date of the Commission's order approving this application to adjust SDG&E's Nuclear Decommissioning Adjustment Mechanism ("NDAM") rates to reflect the annual contributions and revenue requirement as may be approved by the Commission. Based upon this application, SDG&E proposes a NDAM rate increase of ninety-one percent, or \$8.266 million annually from current rates. Furthermore, if SDG&E's request in this proceeding for the amortization of the 2013 forecasted NDAM undercollection of \$0.200 million is approved, for 2014 rates, the proposed NDAM rate would increase ninety-three percent from current rates. This increase reflects the transfer of funds from SDG&E's non-qualified trusts to its qualified trusts, an appropriate allowance for franchise fees and uncollectibles of 1.0275 percent and 0.1410 percent, respectively,⁴ and funds received from SCE representing SDG&E's ratable share of an award of civil damages related to the failure of the United States Department of Energy to begin accepting spent nuclear fuel from SONGS Units 1, 2 and 3.⁵

B. This Application Comports With The Commission's Explicit Purposes Of The NDCTP.

As set forth by the Commission in D.10-07-047, the purposes of the [NDCTP] proceeding are "[1] to set the annual revenue requirements for the decommissioning trusts for the nuclear powerplants owned by Southern California Edison Company, San Diego Gas & Electric Company, and Pacific Gas and Electric Company, [2] to verify the utilities are in compliance with prior decisions applicable to decommissioning, and [3] to determine whether actual expenditures by the utilities for decommissioning activities are reasonable and prudent."⁶

SCE owns an 80% interest in SONGS 1 and a 78.21% interest in SONGS 2 & 3, and is the decommissioning agent and operating agent for these respective facilities. SDG&E owns 20% interests in SONGS 1, 2, and 3. SCE also owns a 15.8% interest in Palo Verde.⁷ As discussed in Chapter IV of

⁴ SDG&E Test Year 2008 General Rate Case, Commission Decision 08-07-046, July 31, 2008.

⁵ SCE has submitted a refund proposal for the DOE damages award in its 2011 Record Period ERRAs.

⁶ Decision No. 10-07-047, mimeo, p. 2.

⁷ Arizona Public Service Company owns a 29.10% interest in Palo Verde, and is the operating agent. The remaining non-operating owners are: Salt River Project (17.49%), El Paso Electric Company (15.80%), Public Service Company of New Mexico (10.20%), The Southern California Public Power Authority (5.91%), and Los Angeles Department of Water and Power (5.7%).

Exhibit SCE-1, Phase I of SONGS Unit 1 decommissioning was completed by December 31, 2008, and therefore there are no Phase I expenditures to review in this proceeding. Phase II of SONGS Unit 1 decommissioning commenced January 1, 2009 and is expected to be completed after the Department of Energy removes all SONGS 1 spent fuel from the site (estimated to be approximately year 2053). Phase III of SONGS Unit 1 decommissioning will occur concurrently with Phase III of SONGS 2 & 3 decommissioning, and is not expected to commence until year 2054.

With respect to the first purpose of the NDCTP cited by the Commission in D.10-07-047, i.e., to set the annual revenue requirement, the Utilities' respective revenue requirement requests are set forth at the beginning of Section I of this Application and are supported by the testimony presented in Exhibit Utilities-3. The Utilities have previously submitted decommissioning cost studies and ratepayer contribution analyses for nuclear decommissioning costs at SONGS and Palo Verde.⁸ This Joint Application likewise submits updated decommissioning cost studies and ratepayer contribution analyses for nuclear decommissioning contributions for SONGS and Palo Verde for the next three years, commencing January 1, 2014.

With respect to the second purpose of the NDCTP set forth in D.10-07-047, i.e., to verify the utilities' compliance with prior decommissioning decisions, the Utilities' testimony in Exhibits SCE-1, SCE-2, and Utilities-3 support their compliance with prior decisions. In addition, in the Utilities' last NDCTP proceeding, the Commission in Decision No. 10-07-047 identified three new requirements for this instant application:

- The Utilities are to provide contribution estimates assuming successful completion of license renewal.⁹ In support of this requirement, the Utilities have submitted testimony in Exhibit Utilities-3.
- The Utilities are to report pro rata share of funds accumulated for Nuclear Regulatory Commission License termination (radiological decommissioning to meet the Nuclear

⁸ See D.95-07-055, 60 C.P.U.C. 2d 658, 671 (1995) (“[E]ngineering cost studies and ratepayer contribution analysis should continue to be performed every three years. . . .”).

⁹ Decision No. 10-07-047, Ordering Paragraph 8.

Regulatory Commission standard for license termination) and provide copies of their most recent funding assurance letters sent to the Nuclear Regulatory Commission.¹⁰ In support of this requirement, the Utilities have submitted testimony in Exhibits SCE-1 and SCE-2.

- The Utilities are to report any responsive information from the United States Department of Navy relating to the applicable site restoration and remediation standards after termination of the SONGS site lease.¹¹ In support of this requirement, the Utilities have submitted testimony in Exhibit SCE-2.

In addition, in Decision No. 11-07-003, also from the Utilities' last NDCTP proceeding, the Commission ordered the Utilities to attach to this instant application the common summary format that identifies key information from their nuclear decommissioning cost estimates and proposed revenue requirements.¹² This summary is included as part of this Application as Attachment I.

Finally, this Joint Application is made to ensure compliance with requirements to decommission the SONGS and Palo Verde facilities and with the Nuclear Facilities Decommissioning Act. As holders of the Nuclear Regulatory Commission (NRC) license, the Utilities, on behalf of their customers, have an unavoidable obligation, under federal regulation, to decommission the SONGS facilities.¹³ The Utilities' customers are required to provide funding to decommission SONGS.¹⁴ The Utilities do not own the site upon which the SONGS facilities are located. Instead, they are authorized to use the site under grants of easement and leases from the U.S. Department of the Navy and the California State Lands Commission. The SONGS site lease contracts and grants of easement also require the Utilities to decommission the SONGS facility.¹⁵

¹⁰ D.10-07-047, Ordering Paragraph 9.

¹¹ D.10-07-047, Ordering Paragraph 10.

¹² D.11-07-003, Ordering Paragraph 2.

¹³ 10 C.F.R. § 50.2 defines decommissioning as "to remove a facility or site safely from service and reduce residual radioactivity to a level that permits – (1) release of the property for unrestricted use and termination of the license . . ." 10 C.F.R. § 50.82(a)(3) provides that, "decommissioning will be completed within sixty years of permanent cessation of operations."

¹⁴ Public Utilities Code §§ 8322, 8325, and 8328.

¹⁵ Upon termination of the grants of easement, the utilities are required to remove all improvements they installed or constructed on the site, return the site to the condition satisfactory to the grantors, and return the site to the grantors.

As one of the holders of the NRC license for Palo Verde, SCE, on behalf of its customers, also has an unavoidable obligation, under federal regulation, to decommission its share of Palo Verde.¹⁶ SCE's customers are required to provide funding to decommission SCE's share of Palo Verde.¹⁷ The Nuclear Facility Decommissioning Act of 1985, Public Utilities Code Section 8321, et seq., requires the Commission to authorize the Utilities "to collect sufficient revenues and rates to make the maximum contributions" to the decommissioning trust funds, to the maximum extent deductible for federal and state income tax purposes pursuant to Internal Revenue Code Section 468A and applicable regulations, "and to otherwise recover the revenue requirements associated with reasonable and prudent decommissioning costs of the nuclear facilities for purposes of making contributions into other funds established" pursuant to the Act.¹⁸

The Energy Policy Act of 2005 amended section 468A to allow all nuclear decommissioning liability to be funded through the use of Qualified Trusts. In their previous NDCTP filing, the Utilities requested and received approval from the Commission to amend their trust agreements for such fund transfers as provided for by section 468A. The requests were contingent on seeking permission from the Internal Revenue Service (IRS) for such transfer, and ensuring that such transfers comport with California state law. On October 13, 2012, SCE submitted Advice Letter 2639-E informing the Commission that it had received approval from the IRS to complete the special transfer of assets from the SONGS 1 and 2 nonqualified trusts to the SONGS 1 and 2 qualified trust, respectively, within certain dates of receipt of the IRS rulings. Through the advice letter, SCE sought Commission approval to amend its qualified and nonqualified decommissioning trust agreements to permit this transfer, which the Commission approved on November 16, 2011.¹⁹ The Utilities' testimony on the pourover from the SONGS 2 nonqualified trust to the SONGS 2 qualified trust is found in Exhibit Utilities-3.

¹⁶ 10 C.F.R. 50.2 defines decommissioning as "to remove a facility or site safely from service and reduce residual radioactivity to a level that permits - - (1) release of the property for unrestricted use and termination of the license" 10 C.F.R. 50.82(a)(3) provides that, "decommissioning will be completed within sixty years of permanent cessation of operations"

¹⁷ Public Utilities Code §§ 8322, 8325, and 8328.

¹⁸ Cal. Pub. Util. Code § 8325(c).

¹⁹ Per the Energy Division's November 16, 2011 letter to SCE, Advice 2639-E became effective on November 12, 2011.

With respect to the third purpose of the NDCTP cited by the Commission in D.10-07-047, i.e., to determine the reasonableness of actual decommissioning expenditures, the Commission in D. 07-01-013 stated that, “with respect to Phase 1 SONGS 1 decommissioning work, the Commission in D.99-06-007 adopted a ratemaking settlement that included a presumption that the utilities’ conduct is reasonable in performing Phase 1 SONGS 1 decommissioning work if the scope of the work completed and the most recently approved SONGS 1 decommissioning cost estimate bound the costs incurred.”²⁰ If the actual costs incurred are within the estimate, “any entity claiming the utilities acted unreasonably would, therefore, bear the burden of proving the utilities acted unreasonably.”²¹ Phase I decommissioning work for SONGS 1 was completed on or about December 31, 2008. With respect to Phase II decommissioning of SONGS 1,²² which commenced on or about January 1, 2009, the CPUC set the following reasonableness standard’s reasonableness standard:

“[W]e define reasonableness for decommissioning expenditures consistent with prior Commission findings; i.e., that the reasonableness of a particular management action depends on what the utility knew or should have known at the time that the managerial decision was made.”²³

The Utilities’ testimony on the actual decommissioning expenditures for SONGS 1 is found in Exhibit SCE-1.

II.

THE UTILITIES REQUEST APPROVAL OF THEIR PROPOSED CONTRIBUTION LEVELS TO THEIR RESPECTIVE DECOMMISSIONING TRUST FUNDS

The Utilities used four key elements to determine their proposed decommissioning funds contribution requirements: (1) decommissioning cost studies, (2) escalation projections, (3) estimates of after-tax rates of return, and (4) current decommissioning trust balances. In developing their decommissioning cost studies, the Utilities assumed that SONGS 2 & 3 would be decommissioned using

²⁰ D. 07-01-003, Standards of Review, (*mimeo*) pp. 7-8, *citing* Settlement § 4.2.2.2.c. at 86 C.P.U.C. 2d 604, 620 (1999).

²¹ *Id.*

²² Phase III of SONGS Unit 1 decommissioning has not commenced.

²³ D.10-07-047, page 45.

the prompt removal/dismantling method after each of the NRC operating licenses expire. SCE assumed that Palo Verde would be decommissioned using the same method after each unit's NRC operating license expires. The prompt removal/dismantling method proceeds with decontamination, dismantling, and removal of the plant with no dormancy period in which the unit is placed in protective storage. The decommissioning cost studies assumed that the permanently closed SONGS 1 unit would continue to be decommissioned. The SONGS 1, SONGS 2 & 3, and Palo Verde decommissioning costs estimates were based on the use of current technologies under current regulations. The cost estimates are sufficient to develop a reasonable estimate of the scope and cost of future work in order to set aside sufficient funds.

SONGS 1 was permanently closed in 1992 and, as authorized in D.99-06-007, the Utilities commenced decommissioning SONGS 1 in 1999. Using the most recent decommissioning cost estimate for SONGS 1, and in comparison to the SONGS 1 trust funds balances plus the non-qualified trust fund tax benefits, no further contributions to those funds are needed. However, the Utilities request authorization to continue to recover an annual revenue requirement for contributions to their Nuclear Decommissioning Trust Funds for SONGS 2 & 3.

A. No Further Contributions To SONGS 1 Decommissioning Trust Funds Are Needed

As shown in the table below, SCE's and SDG&E's SONGS 1 Decommissioning Trust Funds, plus the tax benefits associated with the SCE and SDG&E Nonqualified Trusts for SONGS 1, contain sufficient monies to complete SONGS 1 decommissioning activities based on the 2012 SONGS 1 Cost Estimate for the Remaining Decommissioning Work of \$182.3 million (100% share, 2011\$) provided in this Joint Application.

**Table II-1
SONGS 1 Decommissioning Trust Funds**

Company	Current Decommissioning Trust Funds Plus Estimated Tax Benefits as of September 30, 2012, Nominal \$)	Estimated Cost of Remaining SONGS 1 Decommissioning Work (2011\$)
SCE	\$225.4 million	\$145.8 million
SDG&E	\$96.629 million	\$36.46 million

However, the Utilities should be authorized to continue to use the tax benefits associated with the expenditures of the SONGS 1 Non-qualified Decommissioning Trust Funds to ensure that all SONGS 1 decommissioning costs can be paid out of existing monies.²⁴

B. The Commission Should Authorize SCE To Contribute \$40.98 Million And SDG&E To Contribute \$16.239 Million Each Year To Their Nuclear Decommissioning Trust Funds

The 2012 SONGS 2 & 3 Decommissioning Cost Estimate remained relatively flat at \$4.12 billion (100% share, 2011\$) over the 2009 SONGS 2 & 3 Decommissioning Cost Estimate of \$4.08 billion (100% share, 2011\$) adopted in the 2009 NDCTP.²⁵

To estimate the contributions needed to fund the decommissioning of SONGS 2 & 3 and Palo Verde fully, annual escalation rate projections were used to convert the decommissioning cost estimates in base-year dollars to decommissioning cost estimates in future-year dollars. Escalation rates were based on projections from IHS Global Insight, a highly respected economic forecasting firm that the Commission has relied upon for many years. Similarly, SCE derived estimated trust fund asset returns from projections by IHS Global Insight. SCE calculated its estimated annual contribution (\$40.98 million) and revenue requirement based on these projections and other data, as explained in Exhibit Utilities-3. SCE's contribution and revenue requirement should be revised at the time of briefing, based on updated trust fund balances at that time.

With respect to SDG&E's ratable share of the estimated costs of decommissioning SONGS Units 1, 2 and 3, SDG&E determined the reasonable level of its annual contributions to its Nuclear Decommissioning Trust Funds and the associated annual revenue requirement based upon the decommissioning cost estimates by SCE and/or as prepared for SCE by ABZ, Incorporated, such estimates having been provided by SCE to the Commission for this application, and by taking a ratable

²⁴ In Section 4.2.3 of the Settlement Agreement adopted in D.99-06-007, the settling parties proposed that, "Upon completion of Phase I, [Applicants] will assess the remaining SONGS 1 Decommissioning Work and recommend to the Commission the appropriate timing for returning the Nonqualified Trust Fund Tax Benefits to ratepayers." As described in Exhibit No. SCE-1, SCE will need the non-qualified tax benefits to complete SONGS 1 Decommissioning based on the 2005 SONGS 1 Cost Estimate for the Remaining Decommissioning Work, fund growth, and escalation.

²⁵ The amount adopted in the 2009 NDCTP was \$3.7 billion (2008\$), which is \$4.08 billion in 2011\$.

share of twenty percent (20%) to reflect SDG&E's ownership share of SONGS Units 1, 2 and 3, and then by reflecting:

- (a) Expected cost escalation rates provided by SCE, acting as SDG&E's Decommissioning Agent for SONGS Units 1, 2 and 3, to SDG&E;
- (b) SDG&E's forecast of the expected investment returns that might be generated from the various investments made using the funds in the Trusts for the period 2014 through 2022;
- (c) The trust account balances in SDG&E's Nuclear Decommissioning Trust Fund as of September 30, 2012; and,
- (d) A credit entered, during May 2012, to the SDG&E Nuclear Decommissioning Adjustment Mechanism (NDAM) balancing account to reflect the receipt of funds from SCE resulting from an award of civil damages related to the failure of the United States Department of Energy to begin accepting spent nuclear fuel from SONGS Units 1, 2 and 3.

Under the various agreements pursuant to which SDG&E's ownership interests in its twenty percent (20%) share of SONGS Units 1, 2 and 3 are administered and managed, SCE acts as the Decommissioning Agent for the owners of those units. Further, pursuant to these same agreements, SDG&E assumes it will be responsible for funding a full ratable twenty-percent share of the costs of decommissioning SONGS Units 1, 2 and 3. Taking this amount from the SCE cost estimates, the level of annual contributions required to fund the fully escalated costs of plant decommissioning allocable to SDG&E was determined using reasonable assumptions as to the SDG&E Nuclear Decommissioning Trust Fund balances as of December 31, 2013, and the reasonably achievable rates of return that might be generated from the various investments made using the funds in the Trusts for the period 2014 through 2022. This is the same methodology SDG&E has used for determining its necessary annual contributions and revenue requirements for the decommissioning of SONGS Units 1, 2 and 3 in prior Commission proceedings regarding these matters.

Under the currently effective guidelines regarding assets and asset allocations allowed within the SDG&E Nuclear Decommissioning Trust Fund, SDG&E determined the reasonably achievable post-fee, after-tax rate of return that may be earned within its Nuclear Decommissioning Trust Accounts would be

approximately 4.65 percent and 2.23 percent for the Qualified and Non-qualified Trusts, respectively. These assumptions were used in setting the annual contributions rate for the trust funds at \$16.239 million for the next triennial period.

For ratemaking purposes, SDG&E assumed the change in the level of annual contributions and revenue requirement would be effective January 1, 2014. The level of annual contributions determined by SDG&E was increased to provide an allowance for associated franchise fees and uncollectibles. At such time as SDG&E files its advice letter setting the NDAM rate for January 1, 2014, SDG&E will adjust its actual NDAM rate in accordance with the Commission's decision in this matter and update for any undercollection or overcollection that may exist in its NDAM balancing account.

Additionally, following the successful prosecution of claims brought by SCE against the United States Department of Energy, SCE distributed to SDG&E a ratable share of the civil damages awarded to SCE related to those claims. On or about May 30, 2012, SDG&E recorded the funds received from SCE, in the amount of \$15.3 million in its Nuclear Decommissioning Adjustment Mechanism balancing account. On or about October 31, 2012, SDG&E filed Advice Letter 2412-E²⁶ requesting that the Commission permit SDG&E to amortize the overcollection in the NDAM account resulting from the recordation of these funds in its NDAM account and to refund these funds to ratepayers in 2013.²⁷

III.

THE UTILITIES REQUEST THE COMMISSION DETERMINE THAT \$14.9 MILLION SPENT ON SONGS 1 DECOMMISSIONING WORK COMPLETED BETWEEN JANUARY 1, 2009 AND DECEMBER 31, 2012 WAS REASONABLE AND PRUDENT

Phase I decommissioning work for SONGS 1 was completed on or about December 31, 2008, and therefore is no longer within the scope of this application. With respect to Phase II decommissioning of SONGS 1,²⁸ which commenced on or about January 1, 2009, the Commission set the following reasonableness standard:

²⁶ Pending Commission approval as of the date of the filing of this application.

²⁷ SCE has submitted a refund proposal for the DOE damages award in its 2011 Record Period ERRAs review proceeding (A.12-04-001).

²⁸ Phase III of SONGS Unit 1 decommissioning has not commenced.

“[W]e define reasonableness for decommissioning expenditures consistent with prior Commission findings; i.e., that the reasonableness of a particular management action depends on what the utility knew or should have known at the time that the managerial decision was made.”²⁹

In Exhibit No. SCE-1, the Utilities demonstrate that the \$14.9 million (100% share, 2011\$) cost of the SONGS 1 decommissioning work completed between January 1, 2009 and December 31, 2012 was reasonable.

IV.

STATUTORY AND PROCEDURAL REQUIREMENTS

A. Statutory Authority

This Joint Application is made in compliance with Decision Nos. 95-07-055 and 07-01-003, as modified by the filing date set in the Executive Director’s letter dated July 5, 2011, to SCE and SDG&E. In addition, this request complies with the Commission’s Rules of Practice and Procedure (Commission Rule), and prior decisions, orders and resolutions of this Commission.

B. Compliance With Commission Rule Of Practice And Procedure 2.1

Commission Rule 2.1 requires that “[a]ll applications shall state clearly and concisely the authorization or relief sought; shall cite by appropriate reference the statutory provision or other authority under which Commission authorization or relief is sought, shall be verified by at least one applicant . . . ; and . . . shall state the following: (a) [applicant information]; (b) [applicant service information]; (c) The proposed category for the proceeding, the need for hearing, the issues to be considered, and a proposed schedule. . . . ; (d) Such additional information as may be required by the Commission in a particular proceeding.” California Public Utilities Code § 1701.1(c)(3) defines ratesetting as “cases in which rates are established for a specific company, including, but not limited to, general rate cases, performance-based ratemaking, and other ratesetting mechanisms.” SCE and SDG&E propose this application be designated as a “ratesetting” proceeding.

²⁹ D.10-07-047, page 45.

The need for hearings will depend on the degree to which other parties contest the proposals contained herein. Assuming hearings will be necessary in this proceeding, the Utilities have prepared a proposed procedural schedule, as shown below:

***Table IV-2
Nuclear Decommissioning Joint Application***

Application Filed	December 21, 2012
Utilities' Application is noticed on CPUC Calendar	December 24, 2012
Protests/Responses Due	January 23, 2013
Responses	February 4, 2013
Prehearing Conference	February 15, 2013
Intervenor Testimony	March 13, 2013
Rebuttal Testimony	April 8, 2013
Evidentiary Hearings	May 21, 2013 – May 24, 2013

Comments on Proposed Decision Due	September 26, 2013
Reply Comments on Proposed Decision Due	October 1, 2013
CPUC Final Decision	November 2013

The issues to be considered in this application concern: (1) the reasonableness of the Utilities' decommissioning cost estimate for SONGS 2 & 3 and of SCE's decommissioning cost estimate for Palo Verde; (2) the Utilities' rate recovery of their contributions to their Decommissioning Trust Funds for SONGS 2 & 3; and (3) the reasonableness of the Utilities' \$14.9 million (100% share, 2011 dollars) cost of SONGS 1 Decommissioning Work performed from January 1, 2009 through December 31, 2012.

C. Legal Name And Correspondence

1. SCE

SCE is a corporation organized and existing under the laws of the State of California, and is primarily engaged in the business of generating, purchasing, transmitting, distributing and selling electric energy for light, heat and power in portions of central and southern California as a public utility subject to the jurisdiction of the Commission. SCE's properties, substantially all of which are located within the State of California, primarily consist of hydroelectric and thermal electric generating plants, together with transmission and distribution lines and other property necessary in connection with its business.

SCE's principal place of business is 2244 Walnut Grove Avenue, Rosemead, California, and its post office address and telephone number are:

Southern California Edison Company
Post Office Box 800
Rosemead, California 91770
Telephone: (626) 302-1212

D. Articles Of Incorporation

1. SCE

A copy of SCE's Certificate of Restated Articles of Incorporation, effective on March 2, 2006, and presently in effect, certified by the California Secretary of State, was filed with the Commission on March 14, 2006, in connection with Application No. 06-03-020, and is incorporated herein by this reference pursuant to Rule 2.2 of the Commission's Rules of Practice and Procedure.

A copy of SCE's Certificate of Determination of Preferences of the Series D Preference Stock filed with the California Secretary of State on March 7, 2011, and as presently in effect, certified by the California Secretary of State, was filed with the Commission on April 1, 2011, in connection with Application No. 11-04-001, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series E Preference Stock filed with the California Secretary of State on January 12, 2012, and a copy of SCE's Certificate of Increase of Authorized Shares of the Series E Preference Stock filed with the California Secretary of State on January 31, 2012, presently in effect, certified by the California Secretary of State, are being filed with the Commission on March 5, 2012, in connection with Application No. 12-03-004, and is by reference made a part hereof.

A copy of SCE's Certificate of Determination of Preferences of the Series F Preference Stock filed with the California Secretary of State on May 5, 2012, and as presently in effect, certified by the California Secretary of State, was filed with the Commission on June 29, 2012, in connection with Application No. 12-06-017, and is by reference made a part hereof.

Certain classes and series of SCE's capital stock are listed on a "national securities exchange" as defined in the Securities Exchange Act of 1934 and copies of SCE's latest Annual Report to Shareholders and its latest proxy statement sent to its stockholders has been filed with the Commission with a letter of transmittal dated March 16, 2012, pursuant to General Order Nos. 65-A and 104-A of the Commission.

2. SDG&E

SDG&E is a corporation duly created under the laws of the State of California. A certified copy of the Restated Articles of Incorporation of San Diego Gas & Electric Company presently in effect and certified by the California Secretary of State was filed with the Commission on August 31, 2009, in connection with SDG&E's Application No. 09-08-019 and is incorporated herein by reference.

E. CEQA Compliance

Rule 2.4(c) states that any application for authority to undertake a project that is statutorily or categorically exempt from CEQA requirements shall so state, with citation to the relevant authority. CEQA does not apply to this application. Public Resources Code section 21080(b)(8) states that CEQA does not apply to the "establishment, modification, structuring, restructuring, or approval of rates, tolls, fares, or other charges by public agencies."

F. Authority to Increase Rates – Rule 3.2

Rule 3.2 requires that applications for authority to increase rates, or to implement changes that would result in increased rates, contain the following data.

1. Balance Sheet and Income Statement – Rule 3.2(a)(1)

Appendices A and B to this application contain copies of SCE and SDG&E's balance sheets and income statements as of September 30, 2012, the most recent period available.

2. Present and Proposed Rates – Rule 3.2(a)(2) and (a)(3)

The cost-recovery mechanism proposal and the projected impact on rates are summarized below.

a) SCE

SCE is requesting to update its SONGS 2 & 3 Revenue Requirement from \$22.99 million to \$41.44 million, an increase of 0.2% percent annually beginning January 1, 2014, when compared to total system revenues at present rates (as of October 2012). The attached Appendix G is a copy of SCE's Notification of Application to Increase Electric Rates (Bill Insert). SCE received approval of the draft Bill Insert from the Commission's Public Advisor's Office on December 6, 2012.

b) SDG&E

SDG&E requests approval of an annual revenue requirement reflecting its annual contributions to the SDG&E Nuclear Decommissioning Trust Fund in the amount of \$16.239 million. SDG&E further requests authority to increase its NDAM rates by \$8.3 million beginning January 1, 2014. Attached to this application as Attachment H is a copy of SDG&E Notification of Application to Increase Electric Rates bill insert. SDG&E received approval of the draft Bill Insert from the Commission's Public Advisor's Office on December 18, 2012.

3. Description of SCE's Service Territory and Utility System – Rule 3.2(a)(4)

Because this submittal is not a general rate application, this requirement is not applicable.

4. Summary of Earnings – Rule 3.2(a)(5)

Rule 3.2(a)(5) requires:

A summary of earnings (rate of return summary) on a depreciated rate base for the test period or periods upon which applicant bases its justification for an increase.

SCE's Summary of Earnings (2012 and 2013 Adopted Revenue Requirement) and SDG&E's Summary of Earnings, Nine Months Ended September 30, 2012, are attached hereto as Appendices E and F, respectively.

5. Depreciation – Rule 3.2(a)(7)

Because this submittal is not a general rate application, this requirement is not applicable.

6. Capital Stock and Proxy Statement – Rule 3.2(a)(8)

Because this submittal is not a general rate application, this requirement is not applicable.

7. Statement Pursuant to Rule 3.2(a)(10)

Rule 3.5(a)(10) requires the applicant to state whether its request is limited to passing through to customers "only increased costs to the corporation for the services or commodities furnished by it."

This request is a pass through of costs.

8. Service of Notice – Rule 3.2(b), (c), and (d)

A list of the cities and counties affected by the rate changes resulting from this application are attached as Appendices C and D for SCE and SDG&E, respectively.

As provided in Rule 3.2(b) – (d), notice of filing of this application will be: (1) mailed to the appropriate officials of the state and the counties and cities listed in Appendices C and D; (2) published in a newspaper of general circulation in each county in SCE's and SDG&E's service territory within which the rate changes would be effective; and (3) mailed to all customers affected by the proposed changes.

G. Index Of Exhibits and Appendices To This Application

SCE and SDG&E hereby incorporate by reference into this Joint Application the following exhibits:

***Table IV-3
List of Exhibits***

<u>Exhibit No.</u>	<u>Title</u>
SCE-1	Testimony of SONGS 1 Nuclear Decommissioning Work Completed and Remaining Work Scope
SCE-2	Testimony on the Nuclear Decommissioning of SONGS 2 & 3 and Palo Verde
Utilities -3	Testimony on the Nuclear Decommissioning Trust Fund Contribution Levels and Ratemaking

***Table IV-4
List of Appendices***

<u>Appendix No.</u>	<u>Title</u>
A	SCE's Balance Sheet and Income Statement
B	SDG&E's Balance Sheet and Income Statement
C	SCE's Cities and Counties List
D	SDG&E's Cities and Counties List
E	SCE's Summary of Earnings
F	SDG&E's Summary of Earnings
G	SCE's Notice of Application
H	SDG&E's Notice of Application
I	Common Summary Format

V.

CONCLUSION

In this Joint Application, the Utilities request the Commission: (1) to find the \$14.9 million (100% share, 2011\$) cost of San Onofre Nuclear Generating Station (SONGS) Unit 1 Decommissioning Work completed between January 1, 2009 and December 31, 2012 is reasonable; (2) to find the updated \$182.3 million (100% share, 2011\$) SONGS 1 decommissioning cost estimate for the Remaining Work is reasonable; and (3) to find the updated \$4,119.0 million (100% share, 2011\$) SONGS 2 & 3 decommissioning cost estimate is reasonable.

In addition, SCE requests the Commission to find the updated \$513.5 million (SCE share, 2010\$) Palo Verde decommissioning cost estimate is reasonable.

Finally, SCE requests that the Commission authorize rate recovery of its increased contribution of \$40.98 million to its Nuclear Decommissioning Trust Funds for SONGS Units 2 & 3 through the Nuclear Decommissioning Cost Charge, effective January 1, 2014. The associated revenue requirement associated with this contribution is \$41.44 million.

SDG&E requests the Commission grant SDG&E the following relief and authorities:

(1) Find that the updated estimate of SDG&E's ratable share of the decommissioning costs for SONGS Units 1, 2 and 3 of \$36.46 million, \$400.625 million, and \$423.093 million is reasonable;

(2) Authorize a revenue requirement for SDG&E's annual contribution to its Nuclear Decommissioning Trust Fund for SONGS Units 1, 2 and 3 in the amount of \$16.43 million, effective January 1, 2014; and,

(3) Authorize SDG&E to file an advice letter within fifteen (15) days after the effective date of the Commission's order approving this application to adjust SDG&E's NDAM rates to reflect this revenue requirement and annual contribution. Based upon this application, SDG&E proposes a rate increase of \$8.3 million. This increase reflects an appropriate allowance for franchise fees of 1.0275 percent and uncollectibles of 0.1410 percent as approved by the Commission in Decision 08-07-046 dated July 31, 2008, and funds received from SCE representing SDG&E's ratable share of an award of

**SOUTHERN CALIFORNIA EDISON COMPANY'S
NOTICE OF APPLICATION AND PROPOSED CHANGE IN ELECTRIC RATES TO
RECOVER THE COSTS ASSOCIATED WITH THE COMPANY'S NUCLEAR
DECOMMISSIONING TRUST FUND**

APPLICATION NO. A.12-12-_____

On December 21, 2012, Southern California Edison Company (SCE) filed an application with the California Public Utilities Commission (CPUC) to set contribution levels for the company's nuclear decommissioning trust fund and other related issues in connection with San Onofre Nuclear Generating Station (SONGS) Units 1, 2, and 3.

In this application, SCE requests the CPUC to approve increased contribution to its Nuclear Decommissioning Trust Funds (NDCTP) for SONGS Units 2 & 3 and for Palo Verde Nuclear Generating Station Units 1, 2 & 3 after the end of their current Nuclear Regulatory Commission license periods. The current annual revenue requirement to cover contributions to SCE's trust funds is \$22.99 million. SCE is requesting that this revenue requirement be increased to \$41.44 million or 0.2% annually beginning January 1, 2014, when compared to total system revenues at present rates (as of October 2012).

ILLUSTRATIVE EFFECT ON ELECTRIC RATES AND BILLS

The requested 2014 NDCTP revenue requirement results in an annual increase of \$18.45 million or 0.2% beginning January 1, 2014, when compared to total system revenues at present rates (as of October 2012). If total rates were to change as requested, an average residential customer using 600 kilowatt-hours (kWh) per month would see an increase of \$0.16 per month, from \$107.52 to \$107.68. The following table shows an estimate of proposed revenues and rate changes by customer group:

SCE's Nuclear Decommissioning Cost Triennial Proceeding Application (NDCTP) For January 1, 2014 Implementation				
Customer Group	Revenue Change (\$million)	% Change	Present Rates (¢/kWh)	Proposed Rates (¢/kWh)
Residential	6.313	0.1%	16.05	16.07
Lighting – Small and Medium Power	6.242	0.2%	15.37	15.40
Large Power	5.101	0.3%	10.17	10.19
Agricultural and Pumping	0.635	0.2%	11.77	11.80
Street and Area Lighting	0.159	0.1%	17.78	17.80
TOTAL	18.450	0.2%	14.36	14.39

Attention: Case Administration, Law Department

EVIDENTIARY HEARINGS

The CPUC **may** hold Evidentiary Hearings (EHs) whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may participate. For information relating to the hearings, you may contact the Public Advisor's Office (PAO) at the address or phone number shown at the end of this notice. If EHs are

scheduled, a separate notification to SCE customers regarding the date, time, and location of these hearings will be sent as a separate bill insert, or will appear as a newspaper notification.

The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the EHs. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SCE's request.

CPUC PROCESS

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

If you wish to file written comments on this proceeding, you may send them to the CPUC's PAO at the address or email shown below. Please state that you are writing concerning SCE's application A. 12-12-____. Your comments will become a part of the formal correspondence file for public comment in this proceeding. The PAO will circulate your comments to the five Commissioners, the assigned ALJ, DRA, and to CPUC staff assigned to this proceeding. You may also contact the PAO if you need advice on how to participate in this proceeding. Should Public Participation Hearings be scheduled, you will be notified by a separate post card mailer or as a bill insert with the dates, times, and locations of any hearing on SCE's application identified. Finally, you may also review a copy of this Application and related exhibits at the CPUC's Central Files Office at 505 Van Ness Avenue, 2nd Floor, San Francisco, CA from 8:00 a.m. to noon daily.

December 2012

Appendix H

SDG&E's Bill Insert

**SAN DIEGO GAS & ELECTRIC COMPANY
 NOTICE OF APPLICATION AND PROPOSED CHANGE IN ELECTRIC RATES
 RECOVER THE COSTS ASSOCIATED WITH THE COMPANY’S NUCLEAR
 DECOMMISSIONING TRUST FUND
 APPLICATION NO. A. 12-12-XXX**

On December 21, 2012, San Diego Gas & Electric Company (SDG&E[®]) and Southern California Edison Company (SCE) filed a joint application (A.12-12-XXX) with the California Public Utilities Commission (CPUC) to set contribution levels for each company’s nuclear decommissioning trust fund and other related issues in connection with San Onofre Nuclear Generating Station (SONGS) Units 1, 2 and 3¹.

In this application, SDG&E requests the CPUC to approve increased contribution to its Nuclear Decommissioning Trust Funds for SONGS Units 2 and 3. The current annual revenue requirement to cover contributions to SDG&E’s trust funds is \$8.17 million. SDG&E is requesting that these contributions be increased to \$16.43 million annually beginning January 1, 2014. The requested revenue requirement increase results in an annual increase of \$8.27 million or 101% from current funding.

SDG&E is also proposing to amortize the undercollection in the trust fund account for a 12-month period beginning January 1, 2014. If the proposal is authorized, the revenue requirement will increase by an additional \$0.20 million. The total proposed revenue requirement increase, including both the trust fund and amortization, results in an increase of \$8.47 million or 104% from current resulting from the funding and amortization requested in this proceeding.

ILLUSTRATIVE EFFECT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E’s requests, a typical residential customer living in the inland climate zone and using 500 kilowatt-hours (kWh) per month could see a winter bill increase of \$0.10 per month, or 0.1%. A typical monthly electric bill could increase from \$83.52 to \$83.62. The following table shows the average rate impact to customers by class of SDG&E’s requests in this application. The actual rates approved by the CPUC may be higher or lower than those requested by SDG&E. The percentages shown do not necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity each customer uses.

**SAN DIEGO GAS & ELECTRIC COMPANY – ELECTRIC DEPARTMENT

FOR FURTHER INFORMATION

You may request additional information or obtain a copy of the application and related exhibits by writing to: Linda Wrazen, San Diego Gas & Electric Company, 8330 Century Park Court, CP32D, San Diego, CA 92123. SDG&E’s application and related exhibits may also be inspected at the CPUC office located at 505 Van Ness Ave., San Francisco, CA 94102. Additionally, a copy of the application and related exhibits may be inspected at the following SDG&E business offices:

436 H St.
Chula Vista, CA 91910

104 N. Johnson Ave.
El Cajon, CA 92020

644 W. Mission Ave.
Escondido, CA 92025

2405 E. Plaza Blvd.
National City, CA 91950

336 Euclid Ave.
San Diego, CA 92114

2604 S. El Camino Real
Carlsbad, CA 92008

440 Beech St.
San Diego, CA 92101

The application and related exhibits are also available electronically on SDG&E’s Web site at <http://www.sdge.com/proceedings>.

Copies of this bill insert will be available for viewing and printing on the SDG&E Web site at <http://www.sdge.com/regulatory-notice>.

You may also review a copy of this Application and related exhibits at the CPUC’s Central Files Office at 505 Van Ness Avenue, 2nd Floor, San Francisco, CA from 800 to noon daily.

EVIDENTIARY HEARINGS

Evidentiary Hearings (EHs) **may** be held whereby parties of record will present their testimony and are subject to cross-examination before an Administrative Law Judge (ALJ). These EHs are open to the public, but only those who are parties of record can present evidence or cross-examine witnesses during the evidentiary hearings. After considering all evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. The CPUC may approve expenditures that differ from those SDG&E requests. The actual rates may result in changes greater or less than those described in this notice. If you wish to attend the EHs to listen only, and you are in need of special accommodations, please contact the PAO within 3 – 5 days in advance of the EHs. If EHs are scheduled, a separate notification to SDG&E customers regarding the dates, times and locations of these hearings will be sent as a separate bill insert or will appear as a newspaper notification.

The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the EH's. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SDG&E's request.

CPUC PROCESS

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

If you wish to file written comments on this proposed application filing or informally protest this filing as a customer of SDG&E, you can do so by contacting the CPUC's Public Advisor's Office (PAO). You may also send an email or written comments to the Public Advisor's address, 505 Van Ness Avenue, San Francisco, CA 94102, or phone: 866-849-8390 or send an email to: public.advisor@cpuc.ca.gov. The PAO will circulate your comments to the five Commissioners, the assigned ALJ, DRA and to CPUC staff assigned to this proceeding. You may also contact the PAO if you need advice on how to participate in this proceeding. All correspondence received will become part of the formal file in this application. Please reference Application No. 12-12-XXX when emailing or writing.

Appendix I
Common Summary Format

2012 NUCLEAR DECOMMISSIONING COST TRIENNIAL PROCEEDING
COMMON SUMMARY FORMAT FOR DECOMMISSIONING COST ESTIMATES
PACIFIC GAS AND ELECTRIC COMPANY DIABLO CANYON UNITS 1 AND 2
SOUTHERN CALIFORNIA EDISON COMPANY SAN ONOFRE NUCLEAR
GENERATING STATION UNITS 2 AND 3

In accordance with Ordering Paragraph 2 of Decision 11-07-003, Pacific Gas and Electric Company, Southern California Edison Company and San Diego Gas & Electric Company provide in common format the information required by Attachment A to Decision 11-07-003:

- Section 1 Assumptions and Results for Diablo Canyon Units 1 and 2 and Southern California Edison Company San Onofre Nuclear Generating Station Units 2 and 3
- Section 2 Requested Revenue Requirements and Trust Fund Assumptions for Pacific Gas and Electric Company, Southern California Edison Company and San Diego Gas & Electric Company

**SECTION 1
Assumptions and Results**

	DCPP Units 1 and 2	SONGS Units 2&3
Assumptions		
DOE performance (common)	The 2011 study assumes that DOE will start accepting spent fuel in 2024 (4 years later than the 2008 study) and at a rate such that the last fuel is accepted in 2055 (30 years after shutdown of the last unit). The study further assumes that sealed canisters will be accepted without repackaging.	The 2011 study assumes that DOE will start accepting spent fuel in 2024 (4 years later than the 2008 study) and at a rate such that the last fuel is accepted in 2053 (31 years after shutdown of the last unit). The study further assumes that sealed canisters will be accepted without repackaging.
State severance requirements (common)	<p>The estimate includes staff termination costs for displaced PG&E personnel after permanent cessation of operations, and after termination of decommissioning projects as required by PUC § 8330.</p> <p>The per-person estimated cost is \$82,400, and is based on average base salary, and years of service. The total severance amount is based on terminating 1,487 persons, and is incurred during each period as staffing is reduced.</p>	<p>The estimate includes staff termination costs for displaced SCE personnel after permanent cessation of operations, and after termination of decommissioning projects as required by PUC § 8330.</p> <p>The per-person estimated cost is \$98,000, and is based on average base salary, and years of service. The total severance amount is based on terminating 1,675 persons, and is incurred during each period as staffing is reduced.</p>
State site restoration requirements (common)	<p>The 2011 study assumes that all site improvements located at an elevation higher than 3 feet below grade (both radioactive and non-radioactive) will be removed. The break water will be removed. All material that is expected to contain residual radioactivity (i.e., has activity above federal release limits) will be disposed of at a licensed LLRW facility.</p> <p>The switchyard is excluded from the scope of decommissioning.</p>	<p>The 2011 study assumes that all site improvements (both radioactive and non-radioactive) will be removed, including all below-grade foundations, and intake and outfall conduits. All material that is radioactive (i.e., has detectable activity above background) will be disposed of at a licensed LLRW facility.</p> <p>The switchyard is excluded from the scope of decommissioning.</p>

SECTION 1
Assumptions and Results

<p>Alternatives and pricing for LLRW burial (common)</p>	<p>Rates for disposal are as follows (exclusive of taxes, unless otherwise noted):</p> <p>Class A Bulk LLRW - \$72 per cubic foot Class A General LLRW - \$274 per cubic foot Classes B and C LLRW - \$7,000 per cubic foot GTCC Waste - \$6,119 per cubic foot (packaged volume - nominal 300 cubic foot per package). Cost was determined on a per pound basis, equivalent to the average estimated cost (per pound) for the disposal of spent fuel. Mixed waste – Not directly used in the estimate (closure costs provided)</p>	<p>Rates for disposal are as follows:</p> <p>Class A Bulk LLRW - \$70 per cubic foot Class A General LLRW - \$270 per cubic foot Classes B and C LLRW - \$7,000 per cubic foot GTCC Waste - \$8,500 per cubic foot (packaged volume) Mixed waste - \$592 per cubic foot</p>
--	---	---

SECTION 1
Assumptions and Results

<p>Extent of site and building contamination</p>	<p>In the reactor building the fuel canal liner and all of the concrete located inside the containment liner was assumed to be removed and disposed of as LLRW. This precluded the scabbling (or drill and spall) of concrete surfaces in this building.</p> <p>A fraction of the floor and wall concrete surfaces in radiologically contaminated buildings (penetration, fuel, auxiliary, radwaste storage) are assumed to be scabbled to an average depth of 0.5 inches. The fraction of floor area impacted was estimated to be approximately 20-25% of the concrete floor surface. The fraction of wall areas requiring scabbling were estimated as a fraction of the of the floor area impacted.</p> <p>A fraction of concrete in radiologically contaminated buildings (penetration, fuel, auxiliary) are assumed to be more aggressively decontaminated to an average depth of 2 inches. The fraction of floor area requiring more aggressive decontamination was estimated to be approximately 40% of the floor area being scabbled.</p> <p>No system or structure identified as contaminated upon final shutdown is assumed to become releasable due to decay during decommissioning.</p>	<p>All concrete surfaces in radiologically contaminated buildings (containment, penetration, fuel SEB, and radwaste) are assumed to be scabbled to an average depth of 0.5 inches.</p> <p>In addition, historical unit operation data was used to identify areas that had been exposed to wet or dry contamination. This data was used to estimate the amount of concrete in contaminated buildings that will be assumed to be "volumetrically" contaminated with tritium, and thus dispositioned as LLRW.</p> <p>No system or structure identified as contaminated upon final shutdown is assumed to become releasable due to decay during decommissioning.</p>
--	--	--

SECTION 1
Assumptions and Results

LLRW and hazardous waste on site at beginning of decommissioning including large components

The 2011 study includes the disposition of radioactive material used to operate the DCPD site (such as refueling tools).

The study does include a cost allowance for closure of hazardous-only and mixed waste management units . Specific quantities of materials were not provided.

The 2011 study includes the cost for removal of large components from previous operation that have been stored on site and must be dispositioned as part of decommissioning. These include eight retired steam generators, and 2 retired reactor vessel closure heads.

The 2011 study includes the disposition of radioactive material used to operate the SONGS site (such as refueling tools). This material is managed in SONGS' REMM system.

The study includes costs for removal of hazardous waste on site at shutdown, including asbestos, lead, oil, diesel fuel, mercury, PCBs, acid solutions, caustic solutions, hydrazine, and others.

The 2011 study does not assume that any large components from previous operation have been stored on site and must be dispositioned as part of decommissioning.
