Re: Ocean Ranch Survey, San Diego County.

Dear Ms. Roland,

A record search of the sacred land file has failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the sacred lands file does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Enclosed is a list of Native Americans individuals/organizations who may have knowledge of cultural resources in the project area. The Commission makes no recommendation or preference of a single individual, or group over another. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated, if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe or group. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from any of these individuals or groups, please notify me. With your assistance we are able to assure that our lists contain current information. If you have any questions or need additional information, please contact me at (916) 373-3712.

Sincerely,

A handwritten signature in black ink that reads "Katy Sanchez".

C

Ms. Roland,

The Pauma Band of Luiseno Indians has received your June 19 letter for the Proposed SDG&E Ocean Ranch Substation Project. The proposed project lies within the ancestral lands of the Luiseno people. We are unaware of any specific cultural sites or resources within the project corridor. After reviewing a map of the area, I was wondering if the proposed project is a new project or an upgrade of an existing facility. There appeared to be a small area that has not been impacted by development. As you continue with the archaeological study, the South Coast Information Center may have additional cultural information on the nearby developments. When the cultural study is completed, we would like a copy to review and comment on. If there are any questions or concerns please contact us.

Thank you,

Chris Devers
Cultural Liaison
Pauma Band of Luiseno Indians

**Re: Proposed San Diego Gas & Electric Ocean Ranch Substation Project Location,
APN 161-512-26 and APN 161-512-27, City of Oceanside, County of San Diego, CA**

The Soboba Band of Luiseño Indians appreciates your observance of Tribal Cultural Resources and their preservation in your project. The information provided to us on said project(s) has been assessed through our Cultural Resource Department, where it was concluded that although it is outside the existing reservation, the project area does fall within the bounds of our Tribal Traditional Use Areas. At this time the Soboba Band does not have any specific concerns regarding known cultural resources in the specified areas that the project encompasses, but does request that the appropriate consultation continue to take place between the tribes, project proponents, and government agencies.

Also, working in and around traditional use areas intensifies the possibility of encountering cultural resources during any future construction/excavation phases that may take place. For this reason the Soboba Band of Luiseño Indians requests that approved Native American Monitor(s) be present during any future ground disturbing proceedings, including surveys and archaeological testing, associated with this project. The Soboba Band recommends that you contact the San Luis Rey Band of Luiseño Indians. In the event that future monitoring does become necessary and a monitor from the San Luis Rey Band is not able to be retained, cultural monitors from the Soboba Band of Luiseño Indians will be available.

Sincerely,

A handwritten signature in black ink, appearing to read "JOE", is written over a horizontal line.

RE: Request for Information for the Proposed San Diego Gas and Electric Ocean Ranch Substation Project, APN 161-512-26, City of Oceanside, County of San Diego, CA. [NWB Environmental Services, LLC]

Dear Ms. Roland;

The Pechanga Band of Luiseño Indians ("the Tribe") appreciates your request for information regarding the above referenced Project. After reviewing the provided maps and our internal documents, we have determined that the Project area is not within reservation lands although it is within our ancestral territory.

The Project is in a traditional cultural landscape and is located between three Payómkawichum (Luiseño) village sites associated with specific waterways – *Takáymay*, *Síipaw* and *'ayú*, and several smaller communities. Additionally, the Tribe knows that the presence of water in association with cultural sites, especially villages, is a fairly good indicator that cultural resources may exist either surface or subsurface. As there was little Project-specific information provided in the scoping notice, we are interested in receiving additional information about the Project and as indicated below so we can provide more detailed comments.

The Tribe is dedicated to providing comprehensive cultural information to you and your firm for inclusion in the archaeological study as well as to the Lead Agency for environmental document preparation. At this time, the Tribe requests the following so we may continue the consultation process and to provide adequate and appropriate recommendations for the Project:

- 1) Notification once the Project begins the entitlement process, if it has not already;
- 2) Copies of all applicable archaeological reports, site records, proposed grading plans and environmental documents (EA/IS/MND/EIR, etc);
- 3) Government-to-government consultation with the Lead Agency; and
- 4) The Tribe believes that monitoring by a San Diego County qualified archaeologist and a professional Pechanga Tribe monitor may be required during earthmoving activities. Therefore, the Tribe reserves its right to make additional comments and recommendations once the environmental documents have been received and fully reviewed. Further, in the event that subsurface cultural resources are identified, the Tribe requests consultation with the Project proponent and Lead Agency regarding the treatment and disposition of all artifacts.

As a sovereign governmental entity, the Tribe is entitled to appropriate and adequate government-to-government consultation regarding the proposed Project. We would like you and your client to know that the Tribe does not consider initial inquiry letters from project consultants to constitute appropriate government-to-government consultation, but rather tools to obtain further information about the Project area. Therefore, the Tribe reserves its rights to participate in the formal environmental review process, including government-to-government consultation with the Lead Agency, and requests to be included in all correspondence regarding this Project.

Please note that we are interested in participating in surveys within Luiseño ancestral territory. Prior to conducting any surveys, please contact the Cultural Department to schedule specifics. If you have any additional questions or comments, please contact me at ahoover@pechangan.gov or 951-770-8104.

Sincerely,

Anna Hoover
Cultural Analyst

Re: SDG&E Ocean Ranch Substation Project

Dear Ms. Roland:

This letter is written on behalf of the Rincon Band of Luiseño Indians. We received your notification dated June 18, 2015, and we thank you for the consultation on the SDG&E Ocean Ranch Substation Project. The location you have identified is within the Aboriginal Territory of the Luiseño people, and is also within Rincon's historic boundaries.

Due to the nature and location of the project no further consultation is required at this time.

If there are any questions or concerns please do not hesitate to contact the Rincon Cultural Resources Department at (760) 297-2635 and they will be happy to assist you.

Thank you for the consideration and the opportunity to protect and preserve our cultural assets.

Sincerely,

A handwritten signature in black ink that reads "Jim McPherson".
