Dear Resident or Property Owner:

As you are aware, San Diego Gas & Electric Company (SDG&E®) is undergrounding a distribution circuit along San Dieguito Drive as part of the Del Mar Reconfiguration Project. Construction began in January and is expected to be complete in April.

You received a letter last week notifying you that SDG&E would be performing night work along San Dieguito Drive on **Thursday, March 30**. That night work is now cancelled due to ongoing inclement weather. We will send you another notification once we determine when night work can be rescheduled and after SDG&E seeks additional approval from the City of Del Mar. Thank you for your understanding.

We apologize for any inconvenience you may experience during construction activities and appreciate the community's support as we complete this important project. SDG&E will continue to work closely with local municipalities and community groups to ensure construction activities are as least disruptive as possible. We also plan to keep communities informed during all phases of the Project's construction. We're committed to working with you and local public safety officials to help minimize inconveniences and safeguard a smooth construction process.

If you have any questions or require additional information, please call **(844) 765-6388**. Additional project information may be found at the California Public Utilities Commission web page at <https://www.cpuc.ca.gov/environment/info/ene/delmar/delmar.html> or at www.sdge.com/delmar.

Sincerely,

A handwritten signature in blue ink that reads "Jennifer Ramp". The signature is stylized and cursive.
