Dear Resident or Property Owner:

As you are aware, San Diego Gas & Electric Company is undergrounding a distribution circuit along San Dieguito Drive as part of the Del Mar Reconfiguration Project. Construction began in January and is expected to be complete in April.

To alleviate traffic issues and lengthy delays, and pending approval from the City of Del Mar, SDG&E will be conducting night work for one night only on **April 13**. Work will include installing one underground vault along San Dieguito Drive and connecting that vault to the existing trench line. SDG&E is working with the City of Del Mar in the planning of this night work and will endeavor to mitigate all noise and lighting as much as possible. This is a re-notification as the night work scheduled for last month needed to be re-scheduled due to the wet weather.

Traffic delays and temporary lane closures are expected. We plan to have traffic control measures in place during construction, and our crews will strive to minimize any impacts to you and your neighbors. We encourage you to adjust commuting plans as necessary.

Upcoming Night Work:

Location:	City of Del Mar & City of San Diego
Work Day:	Thursday, April 13
Hours:	9:00 p.m. – 7:00 a.m.
Duration:	1 nights

Once the night work is complete, construction will continue during the day Monday through Friday from 7:00 a.m. to 7:00 p.m. We'll provide additional updates should construction dates change. Although not anticipated, SDG&E will work with the City of Del Mar on an additional night if not all of the work is completed.

We apologize for any inconvenience you may experience during construction activities and appreciate the community's support as we complete this important project. SDG&E will continue to work closely with local municipalities and community groups to ensure construction activities are as least disruptive as possible. We also plan to keep communities informed during all phases of the Project's construction. We're committed to working with you and local public safety officials to help minimize inconveniences and safeguard a smooth construction process.

If you have any questions or require additional information, please call **(844) 765-6388**. Additional project information may be found at the California Public Utilities Commission web page at <https://www.cpuc.ca.gov/environment/info/ene/delmar/delmar.html> or at www.sdge.com/delmar.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jennifer Ramp". The signature is stylized and cursive.
