POWER YOUR DRIVE FOR WORK & HOMES

It's easy to Lovelectric

Congratulations! You have access to electric vehicle (EV) chargers through SDG&E's Power Your Drive program. It makes charging more accessible to apartment and condo dwellers, and workplace employees.

Power Your Drive charging stations remove the barriers to EV ownership, giving you more control, more time, and more freedom to enjoy the ride. Enroll now and enjoy the benefits of Power Your Drive.

BENEFITS

- Conveniently charge your vehicle while at work or while you're at home sleeping.
- Charging stations are provided exclusively for the tenants at your residence or workplace.
- Special pricing plan offers lower prices during grid-friendly times.
- Set a max price of what you want to pay to charge your EV.

Now is the time to drive electric. There is an electric vehicle for every lifestyle, need, and budget. Learn more at [sdge.com/EV](https://www.sdge.com/EV).

SET IT AND FORGET IT...YOU'RE IN CONTROL

Power Your Drive offers a pricing plan that changes hourly to encourage drivers to charge during grid-friendly times. Set a maximum price you're willing to pay. The charging station will stop charging when the hourly price exceeds your max price. You're in control.

Power Your Drive participants pay, on average, around \$0.19 per kilowatt hour - that translates to paying around **\$1.60 for a gallon of gas.**¹

WHY ARE DRIVERS MAKING THE SWITCH TO EVS?

There are many reasons drivers are choosing EVs:

- **Cleaner air:** EVs produce low- to zero-emissions
- **Incentives:** Federal tax credit and California Clean Vehicle rebate
- **Performance:** Quiet, smooth and powerful driving experience
- **Convenience:** No trips to the gas station, just plug into your Power Your Drive Station
- **Less maintenance:** No tune-ups, transmission repairs or oil changes
- **Faster commute:** Single occupant carpool lane access

¹ (EPA 3 Miles/kWh avg / EPA 24.7 Miles/Gallon avg) *\$0.19 = \$1.58/gallon of gas
