2. Please list and describe the components necessary to implement SDG&E's request of annually updating the electric sales forecast through an advice letter.

SDG&E Response:

In the testimony of Ken Schiermeyer, SDG&E has provided, in addition to 2016, the proposed test year 2017 and 2018 sales forecast. On approval of these sales by the Commission within this proceeding, SDG&E would submit an annual advice letter to inform the Commission regarding the rate impacts for the sales updates prior to implementation. Upon approval of the advice letter, this would be incorporated into SDG&E's annual Consolidated filing.
