ORA DATA REQUEST ORA-SDG&E-DR-009-CL8 SDG&E 2019 GRC – A.17-10-007 SDG&E RESPONSE

DATE RECEIVED: OCTOBER 27, 2017 DATE RESPONDED: NOVEMBER 13, 2017

Exhibit Reference: SDG&E-34, SDG&E-34-WP, SDG&E-36, and SDG&E-36-WP-C

SDG&E Witness: Matthew C. Vanderbilt and Steven P. Dais

Subject: Depreciation and Working Cash

Please provide the following:

1. Referring to page MCV-2 of SDG&E-34, line 8, and page 44 of SDG&E-36-WP-C, lines 1 and 4, please explain why the depreciation exhibit (SDG&E-34) and the working cash workpapers (SDG&E-36-WP-C) apparently utilize different amounts for depreciation expenses.

NB: The depreciation exhibit details a recorded depreciation and amortization expense for 2016 of \$407,147,000 and projects the expense for test year 2019 at \$599,646,000. The working cash workpapers enter the "2016 annual amount" of "depreciation and amortization provision" of \$608,257,000 into the lead-lag study.

SDG&E Response 1:

The \$608,257,000 included in workpaper SDG&E-36-WP-C depicts the total 2016 recorded depreciation expense for SDG&E. Of this amount, \$138,819,571 relates to transmission assets and \$43,709,112 relates to Nuclear – Post ICIP assets. Excluding these items, leaves \$425,728,012 of depreciation for Electric Distribution, Gas, and Generation assets shown on lines 5, 6, and 7 of Schedule O-2, respectively.

The \$18,581,064 difference between the \$425,728,012 of deprecation included on Schedule O-2 and the \$407,146,948 included on page MCV-2 of Exhibit SDG&E-34 relates to depreciation on Legacy Meters (\$16,109,969), Pipeline Safety Enhancement Plan (PSEP) assets (\$2,089,330), and Mobile Home Park Master Meter, Beyond-the-Meter (BTM) assets (\$381,765). Please see table below for reconciliation.
