February 5, 2021

Lee Palmer Director, Safety and Enforcement Division California Public Utilities Commission 505 Van Ness Avenue San Francisco, CA 94102

Re: San Diego Gas & Electric Company Amended Public Safety Power Shutoff Post-Event Report for December 23–24, 2020

Dear Director Palmer:

Pursuant to Ordering Paragraph (OP) 2 of Commission Decision (D.) 12-04-024, Section II.A of Commission Resolution ESRB-8, D.19-05-042, and D.20-05-051, San Diego Gas & Electric Company (SDG&E) submitted its post-event report on January 11, 2021 regarding the Public Safety Power Shutoff (PSPS) event that occurred in SDG&E's service area on December 23–24, 2020.

Today, SDG&E submits this amended report for the December 23–24, 2020 PSPS event. The amended report corrects a typographical error in the response to item 5 (pg. 9), and circuit/customer impact details in the response to item 6 (pg. 10). As noted in the PSPS reporting requirements, this amended report has been verified by an SDG&E officer in accordance with Rule 1.11 of the Commission's Rules of Practice and Procedure.

In accordance with D.19-05-042, this amended report has been distributed to the service lists for the following Commission rulemaking (R.) proceedings: R.18-10-007 and R.18-12-005.

If you have any questions regarding this amended report, please contact Elizabeth Beaver at 858-654-1787, or <a href="mailto:ebeaver@sdge.com">ebeaver@sdge.com</a>.

Sincerely,

/s/ Clay Faber

Clay Faber

Director—Regulatory Affairs

This report covers the Public Safety Power Shutoff (PSPS) event that occurred in SDG&E's service territory from December 23–24, 2020. SDG&E submits this report to the Director of Safety and Enforcement Division (SED) and the service lists for Rulemaking (R.) 18-12-005 and R.18-10-007. This report includes the information required by Decision (D.) 12-04-024, Section II.A of CPUC Resolution ESRB-8, D.19-05-042, and D.20-05-051.

The analysis and data provided in this report are based on the most current information available at the time and are subject to modification resulting from additional analyses and assessments completed following submission of the report.

1. An explanation of SDG&E's decision to de-energize, including an explanation of alternatives considered; mitigation measures used to decrease the risk of utility-caused wildfires in de-energized areas; a thorough and detailed description of the quantitative and qualitative factors SDG&E considered in calling, sustaining or curtailing the PSPS event, including information regarding why PSPS was a last resort option; and the specific conditions SDG&E determined must be present for the de-energization event to be concluded.

## **Response:**

### **Explanation of the Decision to De-Energize**

The decision to initiate PSPS was made at SDG&E's EOC, which was fully staffed for the event in a remote environment by a cross-functional team of electric operations, safety, meteorology, engineering, customer service, external affairs, communications, and other personnel, as well as a designated Utility Incident Commander (UIC). SDG&E activated its EOC to provide a coordinated response; ensure there was informed decision-making; coordinate as-needed logistic support; and manage notifications to all affected stakeholders, including customers, state agencies, local jurisdictions, tribal governments, elected representatives, and public safety partners.

SDG&E's EOC was fully activated on December 23 at 07:00 in response to weather forecasts indicating Santa Ana conditions, including strong winds and low humidity, were possible in portions of SDG&E's service area. Based on advanced forecasts, SDG&E anticipated the most severe winds and critical fire weather in areas of eastern San Diego County.

SDG&E weighs many inputs when making the decision to de-energize portions of its system, and leverages refined situational awareness data and input from its subject matter experts when considering the need for PSPS, though experience with the program has indicated it is not appropriate to use a prescriptive technique to determine when to use PSPS, as wildfire conditions are dynamic and not every situation is the same. When making the decision to deenergize, SDG&E considers the following factors:

- Weather conditions: SDG&E's Fire Potential Index (FPI) ratings, Red Flag Warnings (RFW) issued by the National Weather Service (NWS), and the Santa Ana Wildfire Threat Index (SAWTI);
- Vegetation conditions and SDG&E's Vegetation Risk Index;

- Field observations and flying/falling debris;
- Information from first responders;
- Meteorological data, including 10-years of historical information from weather stations and, 99th and 95th percentile winds;
- Expected duration of conditions;
- Location of any existing fires;
- Wildfire activity in other parts of the state affecting resource availability;
- Information on temporary construction.

SDG&E has not developed a specific PSPS algorithm that lists, quantifies and calculates the weight of each factor that is incorporated into a PSPS. SDG&E has developed and published information regarding the factors and weights that go into the determination of the fire environment severity which is included in the FPI and SAWTI sections of SDG&E's 2020 Wildfire Mitigation Plan (WMP).<sup>1</sup>

In addition to local weather conditions, SDG&E closely monitored and considered wildfire activity throughout the region and the availability of fire suppression resources to the area. During this event, the decision to implement PSPS was not based on a single factor, but rather a confluence of conditions. The central considerations in determining if PSPS were warranted are detailed below.

#### **Weather Forecasts and Conditions**

**Summary:** A short-lived, moderate strength Santa Ana wind event occurred Wednesday morning through Thursday afternoon. The NWS issued a Red Flag Warning for Inland Orange County (Zone 554) and the San Diego County Valleys and Mountains (Zones 250 & 258) to be in effect from 0800 Wednesday, December 23, 2020, until 1200 Thursday, December 24, 2020. The SAWTI was rated Marginal on both Wednesday and Thursday.

**Weather Forecasts:** The NWS forecasts called for wind gusts of 40 mph, and up to 50-60 mph in wind-prone locations, with relative humidity down to 7-12%. SDG&E weather models showed the potential for wind gusts in backcountry areas to be in the 35-45 mph range, with isolated higher gusts in the most wind-prone locations. The humidities were expected to be in the teens in most areas, with pockets of single-digit humidities.

**Weather Conditions:** Five weather stations on the SDG&E weather network of 220 stations met or exceeded their all-time Santa Ana wind gust record, 66 weather stations met or exceeded their 99<sup>th</sup> percentile gust, and 152 weather stations met or exceeded their 95<sup>th</sup> percentile wind gust. In addition, 11 weather stations recorded gusts of 56 mph or greater, and 31 weather stations recorded gusts of 50 mph or greater. The peak wind speed recorded on SDG&E's weather mesonet during this event was 71 mph at the Hellhole Canyon station.

 $\underline{https://www.sdge.com/sites/default/files/regulatory/SDG\%26E\%202020\%20Wildfire\%20Mitigation\%20}\\ \underline{Plan\%20Revised\%2003-02-2020.pdf}$ 

**Local Fire Conditions and Fire Potential:** The FPI was Elevated for all inland districts as well as Orange County, and Normal for all San Diego County coastal districts.

### **Alternatives Considered**

Once extreme fire risk weather conditions have materialized, alternatives to PSPS are limited. Over the past decade, SDG&E has dedicated, and continues to dedicate, substantial resources to wildfire prevention and mitigation activities, including work to enhance the resiliency of its grid and to add tools and technologies for weather monitoring and wildfire mitigation.<sup>2</sup> In addition to improving SDG&E's ability to forecast and monitor extreme weather conditions, these efforts enable SDG&E to reduce the number of PSPS events and mitigate the scope of events when PSPS is implemented.

In the days leading up to potential PSPS events, including the events described in this report, SDG&E meteorologists closely monitor weather forecasts to identify the specific areas most likely to experience weather conditions that warrant PSPS. Operational groups use these targeted forecasts to strategically stage field crews and observers in areas anticipated to experience the most severe weather.

Once fire weather conditions materialize, stations in SDG&E's weather network provide reading of conditions including wind speeds, temperatures and relative humidity every 30 seconds. This data is monitored in real time by staff at SDG&E's EOC and used to determine if PSPS should be implemented. This close monitoring and frequent updating of location-specific data enables SDG&E to implement PSPS only as a last resort when conditions warrant de-energization.

### Mitigation Measures to Decrease Utility-Caused Fire Risk in De-Energized Areas

SDG&E implements mitigation measures used to decrease the risk of utility caused wildfires by reinforcing the standards listed in SDG&E Electric Standard Practice 113.1—Operations and Maintenance Wildland Fire Prevention Plan and increasing use of prevention resources. All SDG&E field personnel are required to receive annual training on fire prevention. All non-emergency work is restricted in areas where there is extreme fire potential.

During this event, SDG&E strategically placed observers and field crews at or near the location of the facilities forecast to experience the most severe weather conditions. By staging personnel at these locations, SDG&E was able to quickly react to changes in conditions and ensure energized lines are operated safely with no imminent threats to their integrity, and that de-energized lines are inspected for safety prior to re-energization.

3

<sup>&</sup>lt;sup>2</sup> See SDG&E's 2020 Wildfire Mitigation Plan for additional information on SDG&E's ongoing wildfire prevention and mitigation work:

 $<sup>\</sup>frac{https://www.sdge.com/sites/default/files/regulatory/SDG\%26E\%202020\%20Wildfire\%20Mitigation\%20}{Plan\%20Revised\%2003-02-2020.pdf}$ 

### **Conditions to Conclude the PSPS Event**

Similar to the decision to initiate a PSPS event, the decision to conclude a PSPS event is based on a number of factors.

During this event, SDG&E Meteorologists utilized real time weather station data and forecast models to determine the Santa Ana winds peaked and were trending weaker, without any indication of potential resurgence of conditions that could necessitate additional PSPS.

Based on favorable weather conditions, SDG&E's UIC approved patrols of the de-energized lines. Once patrols were completed and confirmed there was no damage to the infrastructure, the UIC approved re-energization of the devices.

2. All factors considered by SDG&E in its decision to de-energize, including wind speed, temperature, humidity and vegetation moisture in the vicinity of the de-energized circuits.

## **Response:**

The decision to de-energize for public safety is not based on a single factor; numerous criteria are considered when making this decision. For the PSPS events in scope of this report, key bases for the decisions to de-energize included, but were not limited to:

- Wind climatology of each circuit or circuit segment to include the 95th and 99th percentile winds from nearly 10 years of collecting weather data every 10 minutes from every station;
- Infrastructure in temporary configurations due to construction activities;
- Observer reports of imminent threats to power lines, including vegetation encroaching overhead lines, wire movement, debris blown into lines;
- Fire-suppression resources availability were potentially unavailable due to high winds and time of day should an ignition occur;
- The outages could be targeted to minimize impacts to customers;
- The potential impact to customers with access and functional needs, including the number of Medical Baseline (MBL) customers on each de-energized circuit, recognizing that de-energizations can result in significant impacts to these customers;
- Accessibility could be constrained should an ignition occur; and
- A review of active outages on SDG&E's system.

In addition to the factors listed above, the following conditions were considered when making the decision to implement PSPS on December 23-24, 2020:

A Red Flag Warning was in effect on Wednesday and Thursday, which stated that the combination of strong winds, low relative humidity, and warm temperatures could contribute to extreme fire behavior. Additionally, the SAWTI was rated Marginal for both days, indicating the potential for rapid fire growth should an ignition occur. The FPI for all inland districts, as well as Orange County, was Elevated. Live fuel moistures in the region were 65-70%, which is slightly above critical values.

Once the event began, humidities quickly dropped to the teens to single digits throughout SDG&E's service territory. Winds strengthened significantly, with 31 of SDG&E's 220 weather stations eventually recording gusts of or in excess of 50 mph. Through the duration of the event, 66 weather stations recorded gusts that met or exceeded their 99<sup>th</sup> percentile wind gust, while 152 stations met or exceeded their 95<sup>th</sup> percentile wind gusts.

The weather conditions culminated in an environment that supported the growth of the Creek Fire in northwestern San Diego County that sparked near the community of De Luz and spread into Camp Pendleton, eventually growing to more than 4,000 acres.

3. An explanation of how the utility determined that the benefit of de-energization outweighed potential public safety risks.

#### **Response:**

Advanced weather forecasts indicated that communities in portions of SDG&E's service area would experience strong winds and low levels of humidity developing through the day on Wednesday, December 23. SDG&E was concerned the forecast conditions posed an increased risk of wildfire ignition, and that an ignition could result in large, destructive wildfires, with rapid rates of spread and long-range spotting. These concerns were bolstered by the issuance of a Red Flag Warning from the National Weather Service, which was in effect on Wednesday and Thursday, which stated that the combination of strong winds, low relative humidity, and warm temperatures could contribute to extreme fire behavior. During the period of anticipated severe weather, SDG&E monitored real time weather data, observations of vegetation moisture levels, and weather conditions.

Additionally, SDG&E was mindful of the rapidly growing Creek Fire in the northwestern portion of its service territory. This large fire validated the severity of the fire weather conditions. SDG&E determined the conditions warranted de-energizing certain facilities which might otherwise provide a source of ignition.

SDG&E does not make the decision to de-energize lightly. Based on the best available information, SDG&E applies its judgment and experience to the situation at hand, with the safety of the communities and customers it serves, as well as its workforce, as top priority in the decision-making process.

4. The time, place and duration of the event and whether the areas affected by the deenergization are classified as Zone 1, Tier 2, or Tier 3 per the definition in General Order 95, Rule 21.2-D. If service is not restored within 24-hours of the termination of the PSPS event, SDG&E must explain why it was not able to timely restore service.

SDG&E was able to restore power to all de-energized devices within 24 hours of permission by the UIC to patrol. For additional details on the steps taken by SDG&E to safely re-energize, please refer to Response 14 below.

5. Describe how sectionalization was considered/implemented and the extent to which it impacted the size and scope of the de-energization event.

#### **Response:**

SDG&E utilized sectionalization during this PSPS event to reduce PSPS customer impacts. Leveraging real-time data from the SDG&E weather network in the area of the severe weather, SDG&E was able to confirm the strong winds were isolated to portions of the majority of impacted circuits. As a result, SDG&E de-energized only portions of 11 of the 16 circuits impacted during this weather event, as opposed to the entire circuits. By de-energizing only portions of the circuits, SDG&E was able to avert PSPS impacts for approximately 6,7977,030 customer accounts.

Circuit	De-energized device(s)	Total # meters on circuit	# Meters Not De- Energized Due to Sectionalization
75	75-1744R	762	746
78	78-26R, 78-404R, 78-T2-1458	277	156
79	79-799R	888	870
157	157-270, 157-74	1,038	378
214	RIN-12KV-214	882	0
216	216-220R	349	0
215	215-1531R	513	128
220	220-288R	340	16
222	222-1370R	1,509	1,107
283	LL-12KV-283	460	0
358	358-585R	1,153	794
908	VC-12KV-908	1,765	0
909	909-17R	503	141
1030	1030-987	1,381	1,351
1166	LL-12KV-1166	322	0
1458	1458-456, 78-T3-1458	1,685	1,343
Totals		13,827	7,030

Additionally, in an effort to limit the number of customers potentially in scope for this event, where possible, SDG&E performed offloading of customers on circuits in certain areas forecast to experience the most severe fire risk conditions. In total, SDG&E rerouted service to other circuits for approximately 155 customer accounts that are normally served by circuits that were being monitored for potential PSPS outages during this weather event. However, these customers ultimately experienced a PSPS because the circuit segment feeding the offloaded customers was also de-energized due to wind conditions.

SDG&E also used sectionalizing devices to send warning messages and notifications of potential PSPS impacts to specific, more precise customer groups.

6. The number of affected customers, broken down by residential, medical baseline, commercial/industrial and other.

### **Response:**

The customer counts provided below also include customers that were still receiving electricity from the temporary microgrid configurations that SDG&E was able to establish at certain locations. In response to Question #17 below, SDG&E provides a summary of the microgrid locations and customers served by the microgrid. While the customers were deenergized from the larger grid, the microgrid allowed for customers within a specified electrical boundary to receive power from the resources also located within that electrical boundary.

Circuit	Total # Impacted Customer Meters	Commercia I/ Industrial Residential Meters	Residential Meters Medical Baseline Accounts	Medical Baseline Accounts Commercial/ Industrial Meters	Self- Identified Vulnerable <sup>4</sup>	PSPS Critical Facility Meters

-

Includes customers who have self-identified as: disabled or over 62 years old/elderly, and customers who receive an alternate form of bill (e.g., braille).

7. Describe any wind-related damage to SDG&E's overhead powerline facilities in the areas where power was shutoff.

### **Response:**

The following describes wind-related damage found on post-patrols of SDG&E's overhead powerline facilities in areas that experienced PSPS.

Damage was found at 3 locations during SDG&E's post-patrols of its overhead powerline facilities impacted by PSPS. The damage is summarized in the table below.

Circuit	District	General Cause	Equipment
73	Mountain Empire	Wire Slap	OH Conductor
1030	North East	Conductor fell off	OH Conductor
		insulator	
1030	North East	Wire Slap	OH Conductor

See Appendix 5 for photos of weather-related damages to SDG&E facilities.

8. Provide a description of the customer notice and any other mitigation provided by SDG&E. Include a copy of all notifications, the timing of notifications, the methods of notifications and who (IOU or public safety partner) made the notification. If SDG&E failed to provide notifications according to the timelines set forth in the CPUC PSPS Guidelines (see D.19-05-042), include an explanation of the circumstances that resulted in such failure. Include the number of false communications made and an explanation for any false communications by citing the sources of changing data.

### **Response:**

Starting on December 22, SDG&E notified customers in areas that would potentially be impacted by PSPS on December 23. Notifications were made via outbound dialer, email, text messaging, and personal phone calls. Helpful information was also shared on SDG&E's websites (SDGE.com and SDGEnews.com), SDGE Alerts app, SDG&E's social media channels (Twitter, Facebook, Instagram) and with local, state, and national news media outlets.

SDG&E was not able to provide notification to 1,765 customers on the following devices:

Device	Meters De-Energized Without Notification	Date
215-T3-908	549	12/24/20
908-1236R	135	12/24/20
908-1368R	196	12/24/20
908-1370R	110	12/24/20
VC-12KV-908	775	12/24/20

These missed notifications may be attributed to non-communicative SCADA switches, which require SDG&E's Electric Distribution Operations to de-energize upstream of the intended sectionalizing device. Additionally, wind speeds exceeded their thresholds for several circuits and SDG&E did not have crews readily available on-site to de-energize the devices manually as weather conditions materialized. Further, some devices were not included in SDG&E's potentially impacted circuit list because initial weather forecasts did not indicate areas of concern for those circuits.

In preparation for the 2020 wildfire season, SDG&E undertook additional measures to mitigate impacts to customers with access and functional needs (AFN), including MBL customers. Specifically, SDG&E launched new partnership models with 2-1-1 San Diego and 2-1-1 Orange County to support customers with AFN during PSPS. Through these support models, AFN customers may receive services such as assisted transportation, hotel vouchers, and food resiliency. In addition, 2-1-1 amplifies SDG&E's PSPS notifications to more broadly reach the AFN community.

As part of its Generator Grant Program, SDG&E offered portable backup battery units (e.g., Goal Zero Yeti 3000) to MBL customers who were impacted by PSPS in 2019. As of October 2020, SDG&E has provided more than 1,400 backup batteries, including ~75 specifically targeted to MBL customers in Mobile Home Parks who reside in the HFTD.

In addition, to date, SDG&E has completed the installation of 32 generators as part of the Whole Home Generator Program, thus providing those customers the option to remain energized during the PSPS event.

In addition to the support described above, SDG&E contracted with Facilitating Access and Coordinated Transportation (FACT) to provide accessible transportation to customers with access and functional needs 7 days a week to hotels or other safe locations. SDG&E also began a new partnership with Jewish Family Services to provide direct support to AFN customers in the form of shelf-stable food and ice, resiliency kits, access to partner lodging, welfare checks, and transportation.

SDG&E made available portable generator batteries to customers experiencing severe medical challenges as a result of loss of power, whose needs could not be addressed through hotels, transportation, and food delivery. Though there were no requests for portable generators during this event.

See Appendix 1 for detailed information regarding customer notifications

See Appendix 2 for details of notifications to Public Safety and Community Partners

See Appendix 3 for details of notifications to the CPUC

See Appendix 4 for details of notifications to CalOES

Note: No notifications were made to government officials for this event.

9. For those customers where positive or affirmative notification was attempted, an accounting of the customers (which tariff and/or access and functional needs population designation), the number of notification attempts made, the timing of attempts, who made the notification attempt (utility or public safety partner) and the number of customers for whom positive notification was achieved.

## **Response:**

All customer notifications were made by SDG&E. During this event, SDG&E successfully made affirmative notifications to MBL customers who were not reached by phone. SDG&E completed 32 in-person notifications for customers during this event.

See Appendix 1 for detailed information regarding customer notifications.

10. The address of each community assistance location during a de-energization event, describe the location (building, trailer, etc.), describe the assistance available at each location, and the days and hours it was open.

### **Response:**

SDG&E opened 4 CRCs during this event. Resources at the CRCs were offered as "drive thru" services in order to maintain COVID-19 social distancing protocols. Each CRC is a fixed facility, however, due to COVID-19 concerns, SDG&E staged a mobile command trailer or motor home adjacent to the fixed facility for employee use only and to act as a base of operation. The table below summarizes the CRC locations that were activated, site description, resources provided, and days/hours of operations.

Approximately 59 customers (cars) received resources at the CRC during this weather event. CRC volunteers observed that many visiting customers brought fellow neighbors in their car to CRCs, disregarding COVID-19 social distancing protocols. It appears that during PSPS events, customers congregate with fellow neighbors in an attempt to share resources, including their vehicles. Many of these customers do not own a personal vehicle, and therefore, they rely heavily on their neighbor's cars and charity. Most vehicles appeared to represent 2-3 households; thus, SDG&E estimates it provided resources to roughly 175 households.

In addition to the typical resources available at SDG&E's CRCs (e.g., water, light snacks, ice, internet access, medical device charging, etc.), SDG&E also provided 150W power inverters, solar powered LED light bulbs, blankets, and hand warmers as requested. Care packages from prior events were dismantled and instead only provided on an as-needed basis considering this was a short duration event.

The standard hours of operation of SDG&E's CRCs are 8am – 10pm; however, CRCs closed upon full restoration of power on December 24. This means that not all sites remained open through 10pm as power was restored to surrounding communities as restorations were completed.

Location	Site Description	Resources Provided	Days/Hours of Operation
24550	Building +	Bottled water, light snacks, Wi-Fi	Dec 23
Highway 94	Trailer	access, medical device charging, ice,	5pm – 10pm
Potrero, CA		outage updates, water truck for	Dec 24
91963		animals, portable restrooms, cold	8am - 3pm
		weather blankets, hand warmers, and	
		care kits (while supplies lasted).	
9545 River	Building +	Bottled water, light snacks, Wi-Fi	Dec 23
Drive	Trailer	access, medical device charging, ice,	5pm - 10pm
Descanso, CA		outage updates, water truck for	Dec 24
91916		animals, portable restrooms, cold	8am – 12:20pm
		weather blankets, hand warmers, and	
		care kits (while supplies lasted).	

SDG&E Post-Event Report on Public Safety Power Shutoff Event: December 23-24, 2020 Amended—Redline Version

Location	Site Description	Resources Provided	Days/Hours of Operation
17606	Building +	Bottled water, light snacks, Wi-Fi	Dec 24
Harrison Park	Trailer	access, medical device charging, ice,	8pm – 1:15pm
Road		outage updates, water truck for	
Julian, CA		animals, portable restrooms, cold

		weather blankets, hand warmers, and	_
		care kits (while supplies lasted).	

11. A description and evaluation of engagement with local and state public safety partners and community partners in providing advanced outreach/notification during the PSPS event.

#### **Response:**

SDG&E works throughout the year leading up to wildfire season on education and outreach with its local and state public safety partners and community partners. In 2020, education and outreach included in-person tours and trainings. Due to the COVID-19 pandemic, SDG&E has conducted its education and outreach through virtual tours, webinars and trainings.

SDG&E worked extensively with state and regional partners throughout these PSPS events, including extensive and multiple daily briefings with representatives from CalOES, CPUC, CalOES Tribal Affairs, County OES and 2-1-1. Additionally, SDG&E partnered with San Diego County OES, AFN Working Group, 2-1-1 San Diego, 2-1-1 Orange County, and community-based organizations (CBOs) to amplify key messaging through their databases and social media channels, and to translate PSPS notification into other languages. Updates on the PSPS event, including tips and a link to sign up for notifications, were sent to more than 750 community and public safety partners.

The following is a description of specific engagement during the December 23-24 PSPS event.

Throughout the event SDG&E remained engaged with its local and state public safety partners by providing advanced notification to all appropriate Partners and monitoring its communication lines for the duration of the event.

Immediately following the PSPS event, SDG&E distributed a one question online survey requesting public safety partners rate SDG&E's level of engagement with their organization before and during the December 23-24 PSPS event. SDG&E received 26 responses to the survey. Please see below for the level of engagement results of the survey:

12. The local communities' representatives SDG&E contacted prior to de-energization and the date on which they were contacted.

## **Response:**

Please see Appendix 2 for details of notifications to Public Safety and Community Partners.

13. Summarize the number and nature of complaints received as a result of de-energization event and include claims that are filed against SDG&E because of the de-energization.

## **Response:**

SDG&E received the following complaints and claims related to the December 23-24 PSPS events.

As of January 8, 2020, SDG&E received the following claims:

	<b>December 23-24, 2020</b>
Property damage	2
Solar related	0
Food loss	0
Inconvenience of being without power	1
Business loss	0
Hotel stays	0
Generator	0
TOTAL	3

As of January 8, 2020, SDG&E has received 4 complaints for the PSPS event covered in this report. Please see below for details regarding the complaints:

#	Brief Description	Resolution Steps	Date Received
1	Customer feels having another PSPS event during the holidays and in the middle of a pandemic is not right stating they were already part of a fire and everything is burnt, so power should remain on because there is nothing left to burn.	Customer not deenergized as part of this PSPS event; complaint submitted	12/23/2020
2	Customer states that the first recent PSPS event was understandable, but the second was not necessary and neighboring homes were not affected. Customer believes outages are becoming unsatisfactory and requests raising the wind threshold and/or other determining factors used for PSPS events. Customer requests more leniency and consideration, especially during Holidays.	Complaint submitted	12/23/2020
3	Customer concerned about outage at their location as they are near an intersection. Customer states that every single time there has been an outage there has also been an accident that occurs and feels city officials need to be notified.	Complaint submitted and communicated to SDG&E's Regional Public Affairs for coordination with city	12/28/2020

#	Brief Description	Resolution Steps	Date Received
4	Customer was very upset about power outage on Christmas Eve. Customer was advised about the purpose of PSPS events, but still was very upset, cursing and yelling and requested a call back from a supervisor.	Attempted to contact customer via phone; left voicemail	12/28/2020

### 14. Provide detailed timeline and description of the steps taken to restore power.

### **Response:**

SDG&E considers and implements the following steps to restore power:

- Meteorology forecasted winds have peaked and are trending towards safe conditions;
- Approval by UIC to start patrols;
- Full patrol of the de-energized distribution circuit or transmission tie-line to inspect for damages;
- Electric Troubleshooter, observers and/or line crews on-site during re-energization process at key locations;
- Contract fire-fighting resources on-site during re-energization process;
- Check and ensure all personnel are in the clear before re-energization;
- Approval by UIC and Deputy Operations Chief—Electric prior to restoring the circuit/tie-line/device;
- Electric Distribution Operations/Electric Grid Operations directs switching to reenergize the line/segment and notifies EOC of time of re-energization.

Device	Estimated De- Energized Date/Time	Patrol Approval Date/Time	Estimated Restoration Date/Time	Restoration Duration
79-799R	12/23/20 15:12	12/24/20 08:28	12/24/20 09:49	1:21

## 15. Lessons learned by SDG&E from the PSPS event.

## **Response:**

SDG&E conducts a comprehensive after-action review program after each EOC activation. Due to the extensive nature of the review, it takes approximately 30 days after the conclusion of the event to ensure feedback was received from internal and external partners. An initial list of lessons learned from the PSPS events between December 23-24 include the following:

Due to the holidays, SDG&E learned the following:

- To ensure EOC staffing levels were appropriate for the response, some key responders were called back from vacation. SDG&E needs to deepen the bench strength of these key positions. Absenteeism was a combination of vacation and illness.
- There were a few public safety partner notifications where an "out of office" message was received. SDG&E plans to follow-up with these partners to see if additional contacts should be added to the notification list to ensure that messages are received.

16. Recommended updates/modifications the PSPS guidelines adopted in ESRB-8, D.19-05-042, and D.20-05-051.

## **Response:**

At this time, other than the recommended updates/modifications to the PSPS guidelines SDG&E has proposed in prior 2020 PSPS post-event reports, SDG&E does not have any other recommendations at this time. SDG&E looks forward participating in Phase 3 of the De-Energization rulemaking proceeding (R.18-12-005) to review and refine the PSPS guidelines.

17. Include any other matters that SDG&E believes are relevant to the Commission's assessment of the reasonableness of SDG&E's decision to de-energize.

## **Response:**

SDG&E does not have any other matters to share at this time.

## **VERIFICATION**

I am an officer of San Diego Gas & Electric Company and am authorized to make this verification on its behalf. I declare under penalty of perjury that the contents of the foregoing document are true to my own knowledge, except as to matters that are stated on information and belief, and as to those matters, I believe them to be true.

Executed this 5th day of February 2021, at San Diego, California.

John D. Jenkins Vice President, Electric System Operations

San Diego Gas & Electric Company

## **Message Glossary**

Message	Content	
	This is SDG&E calling with an important message. Press any key to continue.	
M2: PSPS possible based on weather forecasts	Alert: Forecasted weather conditions could affect the power lines that serve your community. We are currently monitoring the potential for adverse weather conditions to begin within 24 to 48 hours. These conditions may require us to turn off the power for public safety in your community. If you do experience an outage, the power will stay off until we can safely restore it. Please be prepared to activate your personal family emergency plan. For more information, visit SDGE.com/Ready	
M6A: Overnight PSPS Possible	Warning: weather conditions are forecast to affect the power lines that serve your community. We are currently monitoring adverse weather conditions. These conditions may require us to activate a Public Safety Power Shutoff overnight. The power will stay off until we can safely restore it. Please prepare to activate your personal family emergency plan. For more information including anticipated duration updates, visit SDGE.com/Ready.	
	This is SDG&E calling with an important message. Press any key to continue.	
M7: Active PSPS	Notification - power is out: due to adverse weather conditions affecting power lines that serve your community, the power has been turned off for public safety. Your power could be out overnight and remain out for up to 72 hours. When conditions improve, our crews will assess the safety of the electrical system and determine when power can be restored. Your safety and the safety of your community is our highest priority. For updated information on outages and restoration times, visit SDGE.com/outages, check our mobile app, or follow us on Twitter.	
M11: PSPS active, CRC available	This is an important safety message from SDG&E. Due to adverse weather conditions affecting power lines that serve your community, the power has been turned off for public safety. A Community Resource Center has been opened. You can go there to charge your phone, get water and snacks, and receive further information about the outage event. For Community Resource Center location and hours of operation, visit	

Message	Content	
	This is SDG&E calling with an important message. Press any key to continue.	
M12: Patrols for Restoration in Progress	Conditions have improved, and SDG&E crews have begun patrolling power lines to determine when power can be restored to affected communities. Please be aware that some inspections could take place on your property. For up-to-date information on outages and restoration times, visit SDGE.com/Outages, check our mobile app, or follow us on Twitter.	
M15: Power Restored	This is SDG&E calling with an important message. Press any key to continue.  Your power should now be fully restored. If the power is still out, please call us at 1-800-411-7343. Visit SDGENews.com for up-to-	
	date information. We appreciate your cooperation during this time of adverse weather conditions.	
M15A: No longer at risk for PSPS	Adverse weather conditions have passed in your area. If you received a previous notification about a potential Public Safety Power Shutoff you are no longer at risk of losing power. For more information, visit sdgenews.com. Thank you for your patience.	

SDG&E's Regional Public Affairs team provided notifications to local community organizations, tribal governments, elected officials, government representatives, and local jurisdictions throughout this event.

SDG&E's Emergency Management team provided notifications to CalOES, CalFire, County OES, local jurisdiction Emergency Managers, and dispatch centers.

The tables below include the content of each notification sent by SDG&E's Regional Public Affairs and Emergency Management:

Appendix 2

SDG&E Post-Event Report on Public Safety Power Shutoff Event: December 23-24, 2020 Amended—Redline Version

Description of Notification	Date/Time Sent	Content of Notification
1. SDG&E Public Safety Power Shutoff possible in 72 hours.	12/20/2020 14:08PM	This is an important safety message from SDG&E.  Current weather forecasts anticipate potential for a moderate Santa Ana Wind event to impact Southern California, including SDG&E's service territory, Wednesday, December 23, through Thursday, December 24. SDG&E is closely monitoring these high-fire risk weather conditions.  Please monitor your email for more detailed information tomorrow, Monday, December 21.  For more information, visit <a href="sdge.com/ready">sdge.com/ready</a> . Our new Public Safety Power Shutoff mobile App, <a href="Alerts by SDG&amp;E">Alerts by SDG&amp;E</a> , is also available for download for updates for potential and active Public Safety Power Shutoff events.  Thank you,  SDG&E Liaison Officer
2. SDG&E Public Safety Power Shutoff possible in 72 hours.	12/20/2020 14:18PM	This is an important safety message from SDG&E.  Current weather forecasts anticipate potential for a moderate Santa Ana Wind event to impact Southern California, including SDG&E's service territory, Wednesday, December 23, through Thursday, December 24. SDG&E is closely monitoring these high-fire risk weather conditions.  Please monitor your email for more detailed information tomorrow, Monday, December 21. Thank you for your continued partnership,

SDG&E Liaison Officer

Appendix 2 4

4. SDG&E 12/21/202	This is an important safety message from SDG&E
4. SDG&E Public Safety Power Shutoff possible in 48 hours.	This is an important safety message from SDG&E.  This afternoon the National Weather Service issued a Fire Weather Watch, to be in effect from Wednesday, December 23 at 10:00 a.m., through Thursday, December 24 at 3:00 p.m., for inland Orange County and San Diego County valleys and mountains. These high fire weather risk conditions could affect the power lines serving local communities. We will provide another notice tomorrow when we have a better sense of high fire weather risk conditions and if they are likely to materialize. The communities listed below are included out of an abundance of caution.  The following communities may be impacted:  Alpine Boulevard Campo Reservation Descanso Julian La Posta Reservation Mesa Grande Reservation Mount Laguna Pine Valley Potrero Ramona Rincon Reservation Santa Ysabel Santa Ysabel Reservation Valley Center Viejas Reservation  If weather conditions persist, the estimated start time is late evening Wednesday, December 23. We anticipate that based on current forecasts, the event could last until Thursday, December 24 at 3:00 p.m., with power being fully restored by the evening of December 24. We estimate approximately 540 Medical Baseline (MBL) customers live in the potentially impacted areas.  If you have obtained geographic information systems (GIS) data access from SDG&E, you will be able to receive GIS data via secure data transfer. If you have not set up access or have problems accessing this link, please reply to this email.

The following contacts are available if you need additional information, SDGELiaisonOfficerNotifications@sdge.com or 858-503-5450, or Emergency Management Duty Officer eseodsdge@sdge.com or 858-503-5173. Please do not forward this contact information beyond your public safety teams. If residents have questions, please have them call 1-800-411-7343 for more information and visit our website to update account information.

Another notification based on updated weather forecasts will

Another notification based on updated weather forecasts will be sent tomorrow, December 22.

Thank you for your continued partnership,

SDG&E Liaison Officer

5. SDG&E	12/22/2020	This is an important safety message from SDG&E.
Public Safety Power Shutoff possible within 24 hours	12:59PM	Today the National Weather Service upgraded the Fire Weather Watch to a Red Flag Warning, to be in effect from Wednesday, December 23 at 8:00 a.m., through Thursday, December 24 at 12:00 p.m., for inland Orange County and San Diego County valleys and mountains. Moderate Santa Ana winds are anticipated throughout Wednesday, peaking overnight Wednesday. These high fire weather risk conditions could affect the power lines serving local communities.
		The following communities may be impacted:
		<ul> <li>Alpine</li> <li>Boulevard</li> <li>Campo</li> <li>Campo Reservation</li> <li>Chula Vista</li> <li>Cuyapaipe Reservation</li> <li>Descanso</li> <li>Dulzura</li> <li>El Cajon</li> <li>Escondido</li> <li>Julian</li> <li>La Jolla Reservation</li> <li>La Posta Reservation</li> <li>Los Coyotes Reservation</li> <li>Manzanita Reservation</li> <li>Mesa Grande Reservation</li> <li>Mount Laguna</li> <li>Palomar Mountain</li> <li>Pauma Reservation</li> <li>Pauma Valley</li> <li>Pine Valley</li> <li>Potrero</li> <li>Poway</li> <li>Ramona</li> <li>Ranchita</li> <li>Rincon Reservation</li> <li>San Pasqual Reservation</li> <li>Santa Ysabel</li> <li>Santa Ysabel Reservation</li> <li>Valley Center</li> </ul>
		Viejas Reservation

Warner Springs

If weather conditions persist, the estimated start time could be Wednesday afternoon, December 23. We anticipate that based on current forecasts, the event could last until Thursday, December 24 at 12:00 p.m., with full restoration potentially into Friday. We estimate approximately 2,245 Medical Baseline (MBL) customers live in the potentially impacted areas. This morning notifications were sent to the customers within the impacted areas.

If you have obtained geographic information systems (GIS) data access from SDG&E, you will be able to receive GIS data via secure data transfer. If you have not set up access or have problems accessing this link, please reply to this email. If you have not set up access or have problems accessing this link, please see <a href="Public Safety Power Shutoffmap">Public Safety Power Shutoffmap</a>.

Additional Safety Partner Resources:

- A flyer is available for posting in your community: PSPS Flyer.
- A social media kit is also available to communicate with your communities and constituents: <u>SDG&E</u> Social Media Kit.

6. SDG&E	12/22/2020	This is an important safety message from SDG&E.
Public Safety Power Shutoff possible within 24 hours	13:05	Today the National Weather Service upgraded the Fire Weather Watch to a Red Flag Warning, to be in effect from Wednesday, December 23 at 8:00 a.m., through Thursday, December 24 at 12:00 p.m., for inland Orange County and San Diego County valleys and mountains. Moderate Santa Ana winds are anticipated throughout Wednesday, peaking overnight Wednesday. These <a href="high fire weather risk conditions">high fire weather risk conditions</a> could affect the power lines serving local communities.
		The following communities may be impacted:
		<ul> <li>Alpine</li> <li>Boulevard</li> <li>Campo</li> <li>Campo Reservation</li> <li>Chula Vista</li> <li>Cuyapaipe Reservation</li> <li>Descanso</li> <li>Dulzura</li> <li>El Cajon</li> <li>Escondido</li> <li>Julian</li> <li>La Jolla Reservation</li> <li>La Posta Reservation</li> <li>Los Coyotes Reservation</li> <li>Manzanita Reservation</li> <li>Mesa Grande Reservation</li> <li>Mount Laguna</li> <li>Palomar Mountain</li> <li>Pauma Reservation</li> <li>Pauma Valley</li> <li>Pine Valley</li> <li>Potrero</li> <li>Poway</li> <li>Ramona</li> <li>Ranchita</li> <li>Rincon Reservation</li> <li>San Pasqual Reservation</li> <li>Santa Ysabel</li> <li>Santa Ysabel Reservation</li> <li>Valley Center</li> </ul>
		<ul> <li>Viejas Reservation</li> </ul>

Warner Springs

If weather conditions persist, the estimated start time could be Wednesday afternoon, December 23. We anticipate that based on current forecasts, the event could last until Thursday, December 24 at 12:00 p.m., with full restoration potentially into Friday. We estimate approximately 2,245 Medical Baseline (MBL) customers live in the potentially impacted areas. This morning notifications were sent to the customers within the impacted areas.

If you have obtained geographic information systems (GIS) data access from SDG&E, you will be able to receive GIS data via secure data transfer. If you have not set up access or have problems accessing this link, please reply to this email. If you have not set up access or have problems accessing this link, please see <a href="Public Safety Power Shutoffmap">Public Safety Power Shutoffmap</a>.

8. SDG&E has	12/23/2020	This is an important safety message from SDG&E.
shut off power for public safety. Update as of 4:00 p.m.	16:27	Due to high fire risk weather conditions affecting power lines, the power has been shut off for public safety to:  Descanso (Sill Hill) Potrero Valley Center
		SDG&E's Emergency Operations Center was activated at 7:00 a.m. this morning to closely monitor high fire conditions. As of 4:00 p.m., we estimate approximately 394 customers, including approximately 27 Medical Baseline (MBL) customers are within the affected areas and will be without power overnight. Power may remain off through Thursday afternoon. The National Weather Service Red Flag Warning remains in effect through noon December 24.  The decision to shut off power is done as a last resort to reduce wildfire risk to protect public safety. We continue to monitor the latest weather conditions and update estimated restoration times. When conditions are safe, SDG&E will inspect the power lines to make sure they are safe to operate and determine when power can be turned back on.
		For location details and updated information on outages and when power may be turned back on, please visit <a href="SDGE.com/Outages">SDGE.com/Outages</a> , check our <a href="PSPS mobile app">PSPS mobile app</a> , or follow us on Twitter.
		To support affected residents, SDG&E will be opening drive-thru Community Resource Centers in the below locations depending on impacted communities. These facilities provide ice, water, snacks, charging for small electronics, up-to-date information, handwarmers and other cold weather items. The Community Resource Centers will open today at 5:00 p.m. and will close at 10:00 p.m.
		Community Resource Centers are located at:
		Descanso Descanso Public Library 9545 River Drive

Descanso, CA 91916

#### Potrero

Potrero Community Center 24550 Highway 94 Potrero, CA 91963

### **Valley Center**

Valley Center Branch Library 29200 Cole Grade Road Valley Center, CA 92082

Additionally, the locations of these centers and time when this center will be open can be found at <a href="sdge.com/Ready">sdge.com/Ready</a> If residents require resource assistance during a Public Safety Power Shutoff please have them contact 2-1-1 San Diego.

The following contacts are available if you need additional information, <u>SDGELiaisonOfficerNotifications@sdge.com</u> or 858-503-5450, or Emergency Management Duty Officer <u>eseodsdge@sdge.com</u> or 858-503-5173. Please do not forward this contact information beyond your safety partners. We will continue to provide updates, please monitor your email for additional information. If residents have questions, please have them call 1-800-411-7343.

We do not make these decisions lightly - especially when many families, including our own work family, are learning and working from home while dealing with other difficulties related to the pandemic.

Thank you,

SDG&E Liaison Officer

We do not make these decisions lightly - especially when many families, including our own work family, are learning and working from home while dealing with other difficulties related to the pandemic.
Thank you,
SDG&E Liaison Officer

15. SDG&E has	12/24/2020	This is an important safety message from SDG&E.
15. SDG&E has shut off power for public safety. SDG&E is determining when power can be turned back on.	12/24/2020 7:31AM	This is an important safety message from SDG&E.  Due to high fire risk weather conditions affecting power lines, the power has been shut off for public safety to:  • Alpine • Cuyapaipe Reservation • Descanso • Dulzura
		<ul> <li>El Cajon</li> <li>Jamul</li> <li>La Jolla Reservation</li> <li>Mesa Grande Reservation</li> <li>Palomar Mountain</li> <li>Pauma Valley</li> <li>Pauma Reservation</li> <li>Potrero</li> <li>Ramona</li> <li>Rincon Reservation</li> <li>Santa Ysabel</li> <li>Santa Ysabel Reservation</li> <li>Sycuan Reservation</li> </ul>
		<ul> <li>Valley Center</li> <li>Viejas Reservation</li> <li>SDG&amp;E's Emergency Operations Center is activated to closely monitor high fire conditions. As of 7:00 a.m., we estimate approximately 6,800 customers, including approximately 480 Medical Baseline (MBL) customers are without power in the affected areas.</li> <li>The National Weather Service Red Flag Warning remains in</li> </ul>
		effect through noon today. As weather conditions improve, SDG&E crews will begin inspecting power lines to make sure they are safe to operate and determine when power can be turned back on. Power may remain off through this afternoon.  The decision to shut off power is done as a last resort to reduce wildfire risk to protect public safety. We continue to monitor the latest weather conditions and update estimated restoration times.  For location details and updated information on outages and when power may be turned back on, please visit

<u>SDGE.com/Outages</u>, check our <u>PSPS mobile app</u>, or follow us on Twitter.

To support affected residents, SDG&E will be opening drivethru Community Resource Centers in the below locations depending on impacted communities. These facilities provide ice, water, snacks, Wi-Fi, charging for small electronics, upto-date information, handwarmers and other cold weather items. Four Community Resource Centers will open today at 8:00 a.m. and will close at 10:00 p.m.

### **Community Resource Centers are located at:**

#### Descanso

Descanso Public Library 9545 River Drive Descanso, CA 91916

#### Julian

Julian Community Resource Center 17606 Harrison Park Road Julian, CA 92036

#### **Potrero**

Potrero Community Center 24550 Highway 94 Potrero, CA 91963

#### **Valley Center**

Valley Center Branch Library 29200 Cole Grade Road Valley Center, CA 92082

Additionally, the locations of these centers and time when this center will be open can be found at <a href="sdge.com/Ready">sdge.com/Ready</a> If residents require resource assistance during a Public Safety Power Shutoff please have them contact 2-1-1 San Diego.

The following contacts are available if you need additional information, <u>SDGELiaisonOfficerNotifications@sdge.com</u> or 858-503-5450, or Emergency Management Duty Officer <u>eseodsdge@sdge.com</u> or 858-503-5173. SDG&E Post-Event Report on Public Safety Power Shutoff Event: December 23-24, 2020 Amended—Redline Version

22. SDG&E Public Safety Power Shutoff event has ended.	12/24/2020 15:17 PM	This is an important safety message from SDG&E.  Our crews were able to safely restore power to all customers and communities impacted by Public Safety Power Shutoffs by 2:55 p.m. today. We are deactivating our Emergency Operations Center.  Decisions to implement Public Safety Power Shutoffs are not made lightly. Turning off power in our community is a last resort and the overriding factor remains the same: safety - yours, your neighbors', our employees', emergency responders', our entire community's. We've all seen the devastation that can occur from wildfires. However, we truly regret that even one of our customers is affected over the holiday while also dealing with the impacts of the COVID-19 pandemic.  We continue to look for opportunities to improve our communication and engagement with our safety partners. Please consider taking this quick one-question survey to help us identify opportunities for improvement.  Thank you for your continued partnership keeping our communities safe,  SDG&E Liaison Officer

Subject: RE: SDG&E PSPS Notification: PSPS Initiated for Santa Ana Wind Event/Red Flag Warning for

December 23-24

Good afternoon,

SDG&E has restored service to all customers impacted by this PSPS event as of 2:55 pm today.

SDG&E will distribute its post-event report within 10 business days of the conclusion of this event in accordance with the guidelines set forth in Resolution ESRB-8, Decision (D.) 12-04-024, D.19-05-042, and D.20-05-051.

Thank you, SDG&E Regulatory Affairs

Subject: RE: SDG&E PSPS Notification: PSPS Initiated for Santa Ana Wind Event/Red Flag Warning for December 23-24

Hello,

SDG&E has started the re-energization process for customers impacted by the PSPS event.

As of December 24 at 12:00, the Red Flag Warning has expired, and 14 circuits/devices, which serve 4,915 customer accounts, including 387 MBL, have been re-energized.

Patrol and re-energization efforts continue for 6 circuits/devices, impacting 1,882 customer accounts, including 101 MBL in the communities of: Dulzura, Jamul, Pauma Valley, Potrero, and Santa Ysabel. Restoration is currently estimated for December 24 at 18:00. Please note, estimated restoration times are subject to change based on field patrol observations and weather conditions.

Realtime outage updates are available at SDGE.com.

Thank you, SDG&E Regulatory Affairs

Subject: RE: SDG&E PSPS Notification: PSPS Initiated for Santa Ana Wind Event/Red Flag Warning for December 23-24

Hello,

SDG&E has initiated Public Safety Power Shutoffs (PSPS) in areas of San Diego County due to Santa Ana wind conditions and a Red Flag Warning in effect in the region.

### PSPS Outage Details as of December 24, 2020 at 3:00 am

SDG&E has implemented PSPS for:

Circuits/Devices	20
Customer Accounts Impacted	6,797
Medical Baseline	477
Life Support	280
Communities Impacted	Alpine, Descanso, Dulzura, El
	Cajon, Jamul, Pauma Valley,
	Potrero, Ramona, Santa
	Ysabel, and Valley Center

#### Restoration

Restoration is currently estimated for December 24 at 18:00. Please note, estimated restoration times are subject to change based on field patrol observations and weather conditions.

Additional information, including maps with PSPS boundaries, is available at <u>SDGE.com</u>.

If you have any questions, please respond directly to this email; this inbox will be monitored throughout the duration of the event.

Thank you, SDG&E Regulatory Affairs

Subject: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event/Red Flag Warning for December 23-24

Good morning,

SDG&E has activated its Emergency Operations Center (EOC) as of 7am today, December 23, due to Santa Ana conditions and a Red Flag Warning in effect in the region, which could necessitate Public Safety Power Shutoffs (PSPS).

There is minor change to the potential customer impacts since yesterday's update. Based on updated weather forecasts and modeling, 31,444 customer accounts, including 2,245 Medical Baseline (MBL) and 1,388 life support, could potentially be impacted by this event. There are no changes to the impacted communities since yesterday's update.

Currently, there are no active PSPS in SDG&E's service area.

If you have any questions, please respond directly to this email; this inbox will be monitored throughout the duration of the event.

Thank you, SDG&E Regulatory Affairs

Subject: RE: SDG&E PSPS Protocols Initiated: Santa Ana Wind Event/Red Flag Warning Expected for December 23-24

Good afternoon,

Weather forecasts for Santa Ana wind conditions remain in place for portions of SDG&E's service territory.

#### **Weather Event Details**

Since our last update, the National Weather Service (NWS) has upgraded its Fire Weather Watch to a Red Flag Warning starting Wednesday, December 23 at 8:00 a.m. through Thursday, December 24 at 12:00 p.m. for San Diego County valleys and mountains and inland Orange County. The forecast has trended slightly stronger with Santa Ana winds expected to develop the morning on December 23 through the afternoon December 24.

## **PSPS Notifications and Potential Impacts**

Based on updated weather forecasts, SDG&E provided advanced notifications today, Tuesday December 22 to 30,394 customer accounts, including 2,172 Medical Baseline (MBL) and 1,334 life support, that could potentially be impacted by this event in the following communities:

- Alpine
- Boulevard
- Campo
- Campo Reservation
- Chula Vista
- Cuyapaipe Reservation
- Descanso
- Dulzura
- El Cajon
- Escondido
- Julian
- La Jolla Reservation
- La Posta Reservation
- Los Coyotes Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mousdgent Laguna
- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Pine Valley
- Potrero
- Poway
- Ramona
- Ranchita
- Rincon Reservation
- San Pasqual Reservation
- Santa Ysabel
- Santa Ysabel Reservation
- Sycuan Reservation
- Valley Center

**Amended—Redline Version** 

- Viejas Reservation
- Warner Springs

Additional information, including maps with PSPS boundaries, will be posted to SDGE.com.

## **Next Steps/Update**

There are no active de-energizations at this time. SDG&E anticipates activating its EOC at 7:00 a.m. on Wednesday, December 23 and will remain staffed through the conclusion of the event. Unless there are changes requiring immediate notification, we will provide another update when SDG&E's EOC is activated.

Subject: RE: SDG&E PSPS Protocols Initiated: Santa Ana Wind Event/Red Flag Warning Expected for December 23-24

Good afternoon,

Weather forecasts for Santa Ana wind conditions remain in place for portions of SDG&E's service territory, starting on Wednesday, December 23 and continuing through Thursday, December 24.

#### **Weather Event Details**

The National Weather Service (NWS) has issued a Fire Weather Watch for Wednesday, December 23 at 10:00 a.m. through Thursday, December 24 at 3:00 p.m. for San Diego County valleys and mountains and inland Orange County. At this time, Santa Ana winds are expected to develop late morning on Wednesday, December 23 through the afternoon Thursday, December 24, with the greatest potential for strong winds in San Diego on Wednesday night.

## **PSPS Notifications and Potential Impacts**

Based on updated weather forecasts, the current PSPS event scope includes 7,978 customer accounts (539 Medical Baseline (MBL) and 325 life support) in the following communities. The scope of this event will be revised tomorrow, December 22 based on updated forecasts and weather models.

- Alpine
- Boulevard
- Campo Reservation
- Descanso
- Julian
- La Posta Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mount Laguna
- Pine Valley
- Potrero
- Ramona

**Amended—Redline Version** 

- Rincon Reservation
- Santa Ysabel
- Santa Ysabel Reservation
- Valley Center
- Viejas Reservation

### **Next Steps/Update**

There are no active de-energizations at this time. SDG&E anticipates activating its EOC at 12:00 p.m. on Wednesday, December 23 and will remain staffed through the conclusion of the event.

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Tuesday, December 22.

Thank you, SDG&E Regulatory Affairs

Subject: SDG&E PSPS Protocols Initiated: Santa Ana Wind Event/Red Flag Warning Expected for December 23-24

Good afternoon,

SDG&E has initiated its Public Safety Power Shutoff (PSPS) protocols based on weather forecasts for Santa Ana wind conditions expected to impact the San Diego region starting in the afternoon on Wednesday, December 23 through the afternoon on Thursday, December 24. SDG&E has not activated its Emergency Operations Center (EOC) at this time. SDG&E's EOC staff will remain in a monitoring and planning mode until further notice.

#### **PSPS Notifications and Potential Impacts**

Initial notice is being provided to public safety partners today. SDG&E expects to provide advanced notification to potentially impacted customers starting tomorrow, Monday, December 21. Based on advanced weather forecasts, 40,240 customer accounts will potentially be impacted by this event, including 2,683 MBL customers. All of the potentially impacted areas are located within Tier 3 of the HFTD. Please note, customer impacts are preliminary at this time. The scope of this event will be revised tomorrow based on updated forecasts and weather models.

#### Weather event details

- Santa Ana weather conditions are expected to begin in SDG&E's service area in the afternoon on Wednesday, December 23 through the afternoon on Thursday, December 24.
- Additional information including estimated start/restoration times and potentially impacted areas/communities will be provided in our next notification.
- The Fire Potential Index (FPI) on Wednesday and Thursday is expected to be elevated in portions of San Diego County.

#### **Next Update**

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Monday, December 21. The state executive briefings will begin tomorrow and the meeting series will be sent by SDG&E's Emergency Management department.
