

**RULE 14**

Sheet 3

SHORTAGE OF GAS SUPPLY, INTERRUPTION OF DELIVERY,  
AND PRIORITY OF SERVICE

I. Gas Transportation Service Levels (Continued)

- 3. Interruptible Noncore Service 1/  
Interruptible Intrastate Transportation Service.  
Minimum One-Month Contract Term.  
No Use-or-Pay Obligations or Charges.

Gas curtailment among the service levels shall be made in reverse order with interruptible noncore transportation volumes curtailed first followed by firm noncore transportation volumes, including core subscription, with core service volumes curtailed last. Gas curtailment within each service level is described in Section N. hereunder.

In order to notify noncore customers of gas curtailments, the customer must provide and maintain accurate primary and alternate day/night contact phone numbers and contact names who will be responsible for responding to the utility's notice to curtail gas services. The inability of the utility to notify a noncore gas customer of curtailment due to having out-dated and/or incorrect phone numbers and contact names, will result in the customer being changed to core status for the next 12-month period.

J. End-Use Priority Classification

In the event of a curtailment within the core service, the utility will curtail gas supplies in the reverse order of the assigned end-use priorities described below:

| <u>Priority</u> | <u>Description</u>   |
|-----------------|--|
| P-1             | All residential use regardless of size.<br>All non-residential use through a single meter that is equal to or less than 20,800 therms.   |
| P-2A            | Non-residential use through a single meter that is greater than an annual monthly average of 20,800 therms, where the customer has made a minimum two-year election to receive core reliability service. |
|                 | Electric generation start-up and igniter fuel.<br><del>Fuel for Natural Gas Vehicles.</del>  |
