MARKET-BASED RATE TARIFF**

- 1 **Availability:** San Diego Gas & Electric Company (“SDG&E” or “Seller”) makes electric energy and/or capacity available under this Market-Based Rate Tariff, FERC Electric Tariff No. 10 (“Tariff”), to any buyer for resale, except as prohibited in Paragraph 7. SDG&E also makes ancillary services available to any purchaser, subject to the limitations below.

RTO/ISO Specific

California: Seller offers regulation service, spinning reserve service, and non-spinning reserve service to the California Independent System Operator Corporation (“CAISO”) and to others that are self-supplying ancillary services to the CAISO.

Third Party Provider

Third-party ancillary services: Seller offers Regulation Service, Energy Imbalance Service, Spinning Reserves, and Supplemental Reserves. Sales will not include the following: (1) sales to an RTO or an ISO, *i.e.*, where that entity has no ability to self-supply ancillary services but instead depends on third parties; (2) sales to a traditional, franchised public utility affiliated with the third-party supplier, or sales where the underlying transmission service is on the system of the public utility affiliated with the third-party supplier; and (3) sales to a public utility that is purchasing ancillary services to satisfy its own open access transmission tariff requirements to offer ancillary services to its own customers.

- 2 **Applicability:** This Tariff is applicable to all sales of energy, capacity, or ancillary services by SDG&E not otherwise subject to a particular rate schedule or contract of SDG&E.
- 3 **Duration:** This Tariff shall continue in effect until terminated or changed and such termination or change becomes effective in accordance with any applicable regulatory requirement.
- 4 **Rates:** All sales hereunder shall be made at rates established by agreement between the purchaser and SDG&E.
- 5 **Other Terms and Conditions:** All other terms and conditions of sale shall be established by agreement between the purchaser and SDG&E.
- 6 **Compliance with Commission Regulations:** Seller shall comply with the provisions of 18 C.F.R. Part 35, Subpart H, as applicable, and with any conditions the Commission imposes in its orders concerning Seller’s market-based rate authority, including orders in which the Commission authorizes Seller to engage in affiliate sales under this Tariff or otherwise restricts or limits the Seller’s market-based rate authority. Failure to comply with the applicable provisions of 18 C.F.R. Part 35, Subpart H, and with any orders of the Commission concerning Seller’s market-based rate authority, will constitute a violation of this Tariff.

- 7 **Limitations and Exemptions Regarding Market-Based Rate Authority:** None.
- 8 **Seller Category:** Seller is a Category 2 Seller in the Southwest region, and a Category 1 Seller, as these terms are defined in 18 C.F.R. § 35.36(a), in other regions.
- 9 **Effective Date:** This Tariff shall be effective on the date that FERC permits it to become effective.
