SDG&E 2008 GRC PHASE 2 A.07-01-047
SDG&E RESPONSE DATED: 03/13/2007**

Question 1:

Please provide a bill impact study for schedule E-1 residential customers (not including CARE customers). In this bill impact study please compare the bills that would result from current rates and bills that would result from SDG&E's proposed rates in its January 31st testimony. In table form, please show an annual usage range starting with 0 kWh and then increasing the range by 100 kWh intervals. (For example, perform these calculations at 0 kWh, 100 kWh, 200 kWh, etc.) For each usage range please show:

- a. the bill at current rates;
- b. the bill at SDG&E's proposed rates;
- c. the difference between the bill at current rates and proposed rates;
- d. the percentage change between the bill at current rates and proposed rates;
- e. the number of customers in the usage range;
- f. the percentage of residential customers in the usage range; and
- g. the cumulative percentage of customers.
