

SED DATA REQUEST-1
SDG&E-SOCALGAS 2019 GRC – A.17-10-007-008
SDG&E_SOCALGAS RESPONSE
DATE RECEIVED: OCTOBER 30, 2017
DATE RESPONDED: NOVEMBER 20, 2017

1. So consider this a formal data request for a single spreadsheet per utility that identifies all GRC proposed spending related to “safety projects” (i.e., costs associated with both Controls and proposed mitigations for identified safety risks from the RAMP), plus any other spending identified as “safety” related. This will help us segregate safety related spending, impacts and identify any projects that may apply to more than one risk (at least we hope it does that).

Utility Response 01:

On November 1, 2017, Jamie York and Kelly Hart met with Arthur O'Donnell in front of the CPUC Auditorium to seek clarification of his request. During the meeting, Mr. O'Donnell agreed to a single spreadsheet that mapped the RAMP mitigation activities that were included in the SDG&E and SoCalGas GRC Testimony and Workpapers.

Please see the requested file: Sempra GRC SED-DR-01 Risk Mapping Attachment.
