SDG&E RESPONSE
DATE RECEIVED: DECEMBER 10, 2015
DATE RESPONDED: DECEMBER 18, 2015

2. Please provide copies of the data responses submitted to all other parties to this proceeding who have propounded data requests.

SDG&E Response:

SDG&E objects to this Data Request on the grounds that it calls for confidential, sensitive information that is protected under the trade secret privilege and CPUC Confidentiality Matrix (i.e., applicable provisions of D.06-06-066, G.O. 66-C and PUC Code Sec. 583 and Sec. 454.5(g)). However, without waiving this objection, SDG&E responds as follows.

At the time of this response, SDG&E has provided one data request response since it filed its amended Application on December 1, 2015. The final response was submitted to ORA on December 17. ORA propounded this data request prior to SDG&E filing its amended GRC Phase 2 Application. However, in agreement with ORA, SDG&E provided the response following the filing of the amended Application. SDG&E's response to this ORA data request is provided below. Due to the confidential nature of the material, parts of SDG&E's response have been removed (note: all the referenced spreadsheets are confidential).

For data requests received on or after December 1, 2015, SDG&E will post all data requests and its public responses on its website, using the following link:
