December 20, 2017

The Honorable Kimberly D. Bose, Secretary  
Federal Energy Regulatory Commission  
888 First Street, N.E.  
Washington, D.C. 20426

**Re: San Diego Gas & Electric Company, 2018 Annual RSBA Rate Revision,  
Docket No. ER18-\_\_-000**

Dear Ms. Bose:

Pursuant to Section 35.7 of the Federal Energy Regulatory Commission's (Commission or FERC) Regulations<sup>1</sup>, San Diego Gas & Electric Company (SDG&E) encloses for filing revisions to its Transmission Owner (TO) Tariff, FERC Electric Tariff, Original Volume 11 pertaining to SDG&E's Reliability Services (RS) Revenue Requirement and related Rate Schedules (RS Filing).<sup>2</sup> The proposed effective date is January 1, 2018.

SDG&E respectfully requests that the Commission accept the proposed RS Filing to become effective January 1, 2018. The proposed effective date is mandated by Section 4 of Appendix VI which requires SDG&E to file its annual RS rates in December, the month prior to the month the RS rates are proposed to go into effect, and to use the recorded balance in the RS Balancing Account (RSBA) as of November 30.

## I. CONTENTS OF FILING

SDG&E's RS Filing consists of the following:

1. This cover letter;
2. Attachment No.1, Clean Revised TO tariff sheets;
3. Attachment No. 2, Redline Revised TO tariff sheets;
4. Exhibit No. SDG-1, Testimony of Christian A. Soderlund;
5. Exhibit No. SDG-2, Testimony of Ray Utama;
6. Exhibit No. SDG-3, Cost Statements; and

<sup>1</sup> 18 CFR §35.7.

<sup>2</sup> FERC Electric Tariff, Original Volume 11, Appendix V and Appendix VII. The capitalized terms have the meaning ascribed to them herein or in SDG&E's TO Tariff.

7. Attestation and Certificate of Service.

## II. COMMUNICATIONS

Correspondence and other communications concerning this filing should be addressed to the following:

Christopher M. Lyons  
Senior Counsel  
San Diego Gas & Electric Company

Fax: (858) 637-7969  
E-mail: JStein@semprautilities.com

## III. BACKGROUND

Pursuant to the California Independent System Operator Corporation's (CAISO or ISO) Tariff, the CAISO bills RS costs that it incurs to maintain reliable electric service in the ISO Balancing Authority Area to the Responsible Utility or Participating Transmission Owners (PTO). Such RS costs include Reliability Must Run (RMR) costs and CAISO Market Redesign and Technology Update (MRTU) Exceptional Dispatch costs, including default costs.

For RMR, the CAISO conducts studies annually to identify generating units whose availability and operation is required to ensure the local reliability of the grid. The CAISO contracts with generation owners or operators of these generating units, which are designated as RMR units, to ensure that the CAISO can dispatch the units to meet minimum requirements for local grid reliability. The CAISO bills SDG&E the costs of the RMR units located within SDG&E's service territory. In addition, RMR units can provide reliability benefits in contiguous PTO Service Territories, and in that case, each PTO would have a share of those RMR costs. The CAISO has not designated any RMR units in 2018 that have RS benefits to SDG&E. However, there are RMR costs related to the 2017 service year that are expected to be invoiced in 2018 and are therefore included in the 2018 RMR cost forecast.

The CAISO issues "Exceptional Dispatches" to address reliability needs that cannot be addressed through the normal operation of the ISO markets. When Exceptional Dispatch costs are incurred due to "Transmission-Related Modeling Limitations," the CAISO bills such costs to a PTO as RS costs.

Consistent with its TO Tariff, SDG&E records all RS Costs in its RSBA. The RSBA is designed to ensure that SDG&E neither over-collects nor under-collects from customers RS Costs that the CAISO assesses SDG&E. Each year, SDG&E determines an RS Revenue

Requirement, which includes the RSBA and a forecast of RS costs for the applicable service year, and develops rates to collect that amount. SDG&E bills RS rates to all of its End-Use Customers and its single Wholesale Customer serving load in SDG&E's service area.

#### **IV. DESCRIPTION OF FILING**

##### **A. 2018 Reliability Service Costs**

SDG&E proposes a RS Revenue Requirement from approximately \$3.11 million for the 2017 service year to approximately \$0.74 million for the 2018 service year, a decrease of approximately \$2.37 million. Statement BK, Exhibit No. SDG-3 sets forth the derivation of the 2018 RS Revenue Requirement of \$0.74 million.

In Exhibit No. SDG-1, Mr. Soderlund explains that RS costs consist of RMR and Exceptional Dispatch costs that the CAISO bills to SDG&E. Mr. Soderlund also explains and quantifies the components of SDG&E's 2018 RS forecasted costs and the basis for their incurrence. Essentially, forecasted RMR costs have decreased \$2.50 million from the 2017 forecast costs of approximately \$2.72 million to approximately \$0.22 million for 2018. The forecasted Exceptional Dispatch costs have slightly decreased \$0.03 million from the 2017 forecast costs of approximately \$0.37 million to approximately \$0.34 million for 2018.

In Exhibit No. SDG-2, Mr. Utama describes how he utilizes Mr. Soderlund's 2018 forecast costs and the RSBA balance through November 30, 2017, to develop the RS Revenue Requirement. Mr. Utama also describes the allocation of the RS Revenue Requirement to SDG&E's single wholesale customer and explains how RS costs are allocated to SDG&E's retail customer classes.

Exhibit No. SDG-3, Cost of Service Statements, includes the following Statements: AH, BB, BD, BG, BH, BK and BL.

##### **B. Proposed Revised Tariff Sheets**

SDG&E proposes revisions to the following sections of its TO Tariff, in clean and redlined mode:

Appendix V - Reliability Services Revenue Requirement has been revised to reflect the 2018 RS Revenue Requirement.

Appendix VII - Summary of Reliability Services Retail Transmission Rates has been revised to reflect the 2018 Service Year rates.

Appendix VII - Wholesale RS Rate has been revised to reflect the 2018 rate.

The Hon. Kimberly D. Bose, Secretary  
Federal Energy Regulatory Commission  
December 20, 2017  
Page 4 of 4

## V. REQUEST FOR WAIVER AND OTHER FILING REQUIREMENTS

SDG&E believes that the information contained in this RS Filing provides a sufficient basis for the Commission to accept it and conforms to general rules of applicability and to Commission orders specifically applicable to SDG&E. Nonetheless, to the extent deemed necessary, SDG&E requests that the Commission grant any and all waivers necessary to permit the proposed rates in this RS Filing to become effective on January 1, 2018. SDG&E expressly requests that the Commission waive the 60-day notice requirement, as it has done previously, to permit SDG&E to comply with its TO Tariff's requirement that SDG&E file annual RS rates in December, the month prior to the month the RS Rates are proposed to go into effect.<sup>3</sup>

## VI. SERVICE

In addition to having copies of this letter and all enclosures available for public inspection in SDG&E's principal office located in San Diego, California, SDG&E has served copies of this RS Filing to those persons on the official service lists in Docket Nos. ER13-941, and ER17-547-000. SDG&E has also served the CPUC, the CAISO, Pacific Gas and Electric Company, Southern California Edison Company and other PTOs that have transferred operational control over their transmission facilities and entitlements to the CAISO.

Respectfully submitted,

/s/Christopher M. Lyons

Christopher M. Lyons

This requested waiver is also consistent with the waivers previously granted in SDG&E's RS proceedings, e.g., Docket No. ER08-389 (123 FERC ¶ 61,032 (2008)), and Docket Nos. ER09-451, ER11-2445, ER12-634 and ER14-683).

**APPENDIX V**

**Reliability Services Revenue Requirement**

1. The Reliability Services Revenue Requirement of \$743,000 is equal to the forecast of Reliability Services payments the Participating TO will make to the ISO during the twelve Month period following the Effective Date of the Rate Schedule, the balance in the RS balancing account from the preceding year, including an adjustment for franchise fees and uncollectible accounts expense.
  
2. The amount in (1) shall be effective until amended by the Participating TO in accordance with Appendix VI to this Tariff.

**APPENDIX VII**  
**Reliability Must-Run Charges for End Users<sup>1</sup>**

**[SEE ATTACHED]**

<sup>1</sup> These charges represent the rates for recovery of the RMR revenue requirement.

**UNITED STATES OF AMERICA  
BEFORE THE  
FEDERAL ENERGY REGULATORY COMMISSION**

San Diego Gas & Electric Company ) Docket No. ER18- 000

**PREPARED DIRECT TESTIMONY  
OF  
CHRISTIAN A. SODERLUND  
ON BEHALF OF  
SAN DIEGO GAS & ELECTRIC COMPANY**

## I. INTRODUCTION

**Q1:** Please state your name and business address for the record.

A1: My name is Christian A. Soderlund, and my business address is 9060 Friars Road, San Diego, CA 92108.

**Q2: Briefly describe your present responsibilities at San Diego Gas & Electric Company (SDG&E or Company).**

A2: I am a Senior Energy Administrator in the Electric Grid Operations Department.

**Q3:** Briefly describe your educational and professional background.

**A3:** I have a Bachelor of Science in Mechanical Engineering, from Iowa State University, and a Master of Business Administration from the University of San Diego. In addition, I am a Registered Professional Engineer in the state of California. I have been employed at SDG&E since June of 1978. During that time, I have held positions in Electric & Fuel Procurement, Gas System Planning, and a variety of other positions before my current assignment since November of 2004 to administer grid contracts.

**Q4: Have you previously testified before the Federal Energy Regulatory Commission (FERC or Commission)?**

1 A4: Yes. I previously submitted direct testimony before the Federal Energy Regulatory  
2 Commission in Docket Nos. ER09-451-000, ER10-474-000, ER11-2445-000, ER12-634-  
3 000, ER13-598-000, ER14-683-000, ER15-175-000, ER16-546-000, and ER17-547-000.

4 **II. PURPOSE**

5 **Q5: What is the purpose of your testimony?**

6 A5: The purpose of my testimony is to provide a forecast of the charges SDG&E expects to  
7 incur in the year 2018 for Reliability Services (RS) from the California Independent  
8 System Operator Corporation (CAISO) pursuant to the CAISO Tariff.

9 **Q6: Please summarize SDG&E's 2018 RS Forecast.**

10 A6: As shown in Exhibit No. SDG-1-1, SDG&E's 2018 RS forecast is equal to \$560  
11 thousand, consisting of \$217 thousand for Reliability Must Run (RMR) and \$343  
12 thousand for Exceptional Dispatch.

13 **III. COMPONENTS OF RS COSTS**

14 **Q7: What are the components that make up the RS costs charged to SDG&E by the  
15 CAISO?**

16 A7: There are two cost components of SDG&E's RS charges:  
17 1) RMR;  
18 2) Exceptional Dispatch

19 **Q8: How does the CAISO quantify and allocate RS RMR costs?**

20 A8: Annually, the CAISO conducts Local Capacity Technical Analysis studies to identify  
21 generating units whose availability and operation is required to ensure the local reliability  
22 of the grid. If needed, and in accordance with Section 41 of the CAISO Tariff, the  
23 CAISO contracts with generation owners or operators of these generating units, which

1 are designated as RMR units, to ensure that the CAISO can dispatch the units to meet  
2 minimum requirements for local grid reliability. In addition, the CAISO Tariff Section  
3 41.7 states that RMR units can provide reliability benefits in contiguous Participating  
4 Transmission Owner (PTO) Service Territories, and in that case, each PTO would have a  
5 share of those RMR costs. The costs of the RMR units located within SDG&E's service  
6 territory or non-service area RMR units in the case that the CAISO has determined a RS  
7 benefit to SDG&E are billed to SDG&E by the CAISO. The CAISO has not designated  
8 any RMR units in 2018 under Section 41 that have a RS benefit to SDG&E. However, as  
9 shown in the Response to Q11, there are RMR costs related to the 2017 service year are  
10 expected to be invoiced and recorded in 2018. The 2018 RMR cost forecast of \$217  
11 thousand is found in Exhibit No. SDG-1-1 Line 4.

12 **Q9: How does SDG&E currently recover the RS costs and ensure that customers pay no  
13 more or no less than actual costs?**

14 A9: Pursuant to SDG&E's Transmission Owner Tariff, SDG&E records all RS costs and  
15 revenues in its Reliability Service Balancing Account (RSBA). The RSBA tracks the  
16 cumulative differences between revenues billed by SDG&E for Reliability Services and  
17 SDG&E's costs from the CAISO for such services. The difference between the revenues  
18 collected from customers and costs incurred result in an over or under-collection. This  
19 over or under-collection will be included in the next RS filing, thus ensuring that  
20 customers pay no more or no less than SDG&E's actual RS costs. For example, if  
21 SDG&E forecasts 2018 RS Costs of \$100 and is charged \$110 by the CAISO, it would  
22 create an under-collection in the RSBA of \$10. The \$10 under-collection will be  
23 collected in the subsequent RS filing.

1 .  
2 **IV. RELIABILITY SERVICES RATE SCHEDULE COST FORECAST**

3 **Q10: How have RS costs changed for 2018?**

4 A10: SDG&E is forecasting that RS costs for 2018 will decrease. Exceptional Dispatch costs  
5 are forecast to slightly decrease, and RMR costs are forecast to significantly decrease. As  
6 noted in the Response in A8, and further described in the Response in A11, SDG&E is  
7 forecasting a reduction in its share of RMR costs in 2018 related to the conversion of  
8 AES Huntington Beach (AESHB) Generating Station Units 3 and 4 (HB 3 and 4) to  
9 RMR voltage support service. For the 2018 RMR forecast, Exhibit No. SDG-1-2 has  
10 Line 1 for HB 3 and 4 of \$217 thousand. Exhibit No. SDG-1-2 Line 2 is the 2018  
11 Exceptional Dispatch forecast of \$343 thousand.

12 **Q11: Please explain why SDG&E is including RMR costs in 2018 related to the  
13 conversion of HB 3 and 4 to RMR service when the CAISO is not extending the HB  
14 3 and 4 RMR Contract into the 2018 calendar year.**

15 A11: As a result of the unexpected long-term outage, and eventual shutdown, of San Onofre  
16 Nuclear Generating Station Units 2 and 3, the CAISO Board of Governors, in September  
17 2012, authorized CAISO Management to designate HB 3 and 4 for RMR service as  
18 necessary to provide voltage support in the Los Angeles Basin and San Diego/Imperial  
19 Valley local areas by the conversion of HB 3 and 4 to synchronous condensers. On  
20 September 12, 2017, CAISO Management recommended to the CAISO Board of  
21 Governors that the RMR Contract for HB 3 and 4 not be extended for 2018. In the  
22 CAISO Board of Governors Meeting on September 19, 2017, the Board of Governors  
23 authorized CAISO Management to not extend the HB 3 and 4 RMR Contract into 2018.

1       Although the HB 3&4 RMR Contract is not being extended into 2018, there is normally a  
2       two-month delay from the end of the RMR service month and the month that those RMR  
3       costs are due, in accordance with the CAISO's RMR Payment Calendar. Based on this,  
4       the November and December 2017 Service Month RMR costs are expected to be paid in  
5       2018, and are therefore being included as RMR costs in the 2018 RS Cost Forecast.

6 **Q12: Could other RMR costs not being forecast for 2018 occur in 2018?**

7 A12: Yes. The RMR Agreement, in section 2.4 - Effect of Expiration or Termination, states:  
8       “Expiration or termination of this Agreement shall not affect the accrued rights and  
9       obligations of either Party, including either Party's obligations to make all payments to  
10      the other Party pursuant to this Agreement or post-termination audit rights under Section  
11      12.2.” Later, in Section 9.1 (b) states that the “Owner will submit to CAISO RMR  
12      Invoices for each Month during the term of this Agreement, which are defined in this  
13      Section 9.1(b) as follows: (i) Estimated RMR Invoice; (ii) Revised Estimated RMR  
14      Invoice; (iii) Adjusted RMR Invoice; and (iv) Revised Adjusted RMR Invoice.” Either  
15      or both of these sections could result in RMR invoices being submitted to the CAISO  
16      well beyond the service month in which they occurred. If these RMR costs occur, they  
17      will be charged to the RSBA.

18 **Q13: Please explain Exceptional Dispatch.**

19 A13: The Exceptional Dispatch portion of RS energy costs is driven by three main factors:  
20      1)     Responding to or preventing a CAISO System Emergency, or a situation that  
21       threatens System Reliability;

- 1        2) Responding to a CAISO “Other Exceptional Dispatch” situation, such as
- 2                providing Voltage Support, or responding, preventing, or minimizing a Market
- 3                Disruption;
- 4        3) Responding to a Transmission-Related Modeling Limitation due to, e.g.,
- 5                transmission maintenance, lack of voltage support, system conditions, including
- 6                threatened or imminent reliability conditions for which the CAISO’s Market or
- 7                System modeling is too slow or incapable of resolving.

8 **Q14: How is Exceptional Dispatch priced?**

9 A14: Resources that are exceptionally dispatched are paid at either the Resource-Specific  
10 Settlement Interval LMP, their Energy Bid cost, the Default Energy Bid cost, or the  
11 Energy Bid cost at a negotiated price, consistent with Section 11 of the CAISO Tariff.

12 **Q15: What are the challenges in forecasting Exceptional Dispatches for RS costs?**

13 A15: At a local level, the Exceptional Dispatch portion of RS costs is affected by four main  
14 factors:

- 15        1) SDG&E total load level;
- 16        2) Local generating unit start times and cycling restrictions;
- 17        3) Import limitations; and
- 18        4) Planned and forced transmission reconfigurations.

19        The first two local level items can be reasonably modeled, but the last two are difficult to  
20 predict. As a result, only a rough forecast can be made for reliability related RS energy.

21        In sum, Exceptional Dispatch is typically driven by either unforeseen or unplanned  
22 events or market participant schedules that SDG&E does not and cannot have access to  
23 because the CAISO treats this data as confidential. Since the energy price data and the

1 units that could be exceptionally dispatched are not known ahead of time, the 2018  
2 forecast is based on Exceptional Dispatch costs recorded in the most recent 12 months.  
3 Any differential between the forecasted and actual amount of Exceptional Dispatch costs  
4 for the 2018 period will be reflected in the RSBA. The estimate for these Exceptional  
5 Dispatch costs for 2018 of \$343 thousand is found in Exhibit No. SDG-1-1, Line 8.

6 **Q16: What other factors make forecasting the variable energy component of RS costs  
7 difficult for 2018?**

8 A16: As explained previously, it is a challenge to forecast RS energy. Moreover, an additional  
9 assumption, i.e., the net contractual cost per MWh, is needed to turn the forecasted  
10 energy into an RS cost. For Exceptionally Dispatched units, this net cost per MWh  
11 described in A15 is based on market participant schedules that SDG&E does not and  
12 cannot have access to because the CAISO treats this data as confidential.

13 **Q17: Could other Exceptional Dispatch costs not forecast for 2018 occur in 2018?**

14 A17: Yes. In the current CAISO Tariff, section 11.29.7, it states that the CAISO will publish:  
15 (i) Initial Settlement Statements T+3B on the third (3) Business Day from the relevant  
16 Trading Day (T+3B), (ii) Recalculation Settlement Statements T+12B on the twelfth (12)  
17 Business Day from the relevant Trading Day (T+12B), (iii) Recalculation Settlement  
18 Statements T+55B on the fifty-fifth (55) Business Day from the relevant Trading Day  
19 (T+55B), (iv) Recalculation Settlement Statements T+9M on the one-hundred and ninety-  
20 fourth (194) Business Day after the Trading Day, which is approximately nine (9) months  
21 after the Trading Day (T+9M) if necessary, (v) Recalculation Settlement Statements  
22 T+18M on the three hundred and eighty third (383) Business Day after the Trading Day,  
23 which is approximately eighteen (18) calendar months from the relevant Trading Day

(T+18M) if necessary, (vi) Recalculation Settlement Statements T+35M on the seven hundred and thirty-seventh (737) Business Day after the Trading Day, which is approximately thirty-five (35) calendar months from the relevant Trading Day (T+35M) if necessary, (vii) Recalculation Settlement Statements T+36M on the seven hundred and fifty-ninth (759) Business Day after the Trading Day, which is approximately thirty-six (36) calendar months from the relevant Trading Day (T+36M) if necessary, and (viii) any Unscheduled Recalculation Settlement Statement issued pursuant to CAISO Tariff Section 11.29.7.3. To the extent the CAISO produces any additional RS costs according to the settlement cycle above, these RS costs will be charged to the RSBA.

**Q18: Could other RS costs occurring prior to the Go Live date of the CAISO's Market Redesign Technology Initiative, MRTU, April 1, 2009 be invoiced in 2018?**

A18: Yes. Although not anticipated, in the event the CAISO determines or is required to rerun a period that occurred prior to the April 1, 2009, which could involve RS charges, the CAISO's Business Practice Manual for Settlements and Billing, 3.3.2-Historic Rerun Pass Through Bills, provides a process for billing these Historic Rerun charges in 2018. To the extent these RS costs occur, they will be charged to the RSBA.

**Q19: What is the expected fixed component of RS costs for 2018?**

A19: The fixed component of RS costs for 2018 of \$217 thousand is found in Exhibit No. SDG-1-1 Line 11.

**Q20: What is the expected variable component of RS costs for 2018?**

A21: The variable component of RS costs for 2018 of \$343 thousand is found in Exhibit No. SDG-1-1 Line 12.

**Q22: What are the expected total RS costs for 2018?**

1 A22: The expected total RS Revenue Requirement for 2018 is found in Statement BK (RS  
2 Revenue Requirement). Statement BK includes the under-collected RS balance as of  
3 November 30, 2017 of \$174 thousand and the total 2018 RS Forecast of \$560 thousand.  
4 See Exhibit No. SDG-1-1, Line 15 and Line 13, respectively.

5 **Q23: Does this conclude your testimony?**

6 A23: Yes, it does.

## SDG&E 2018 Costs Included in RS Rate

| Line<br>No. | Components   | 2018<br>Forecasted<br>Costs (\$000's) | Footnote Reference |
|-------------|--|---------------------------------------|--------------------|
| 1           | <b>RMR (Reliability Must-Run) Costs</b>                  |                                       |                    |
| 2           | Fixed (Capacity)   | \$ 217                                | 1                  |
| 3           | Variable (Energy)  | \$ -                                  |                    |
| 4           | <b>Sub-total RMR</b>                                     | <b>\$ 217</b>                         |                    |
| 5           |  |                                       |                    |
| 6           | <b>MRTU Exceptional Dispatch</b>                         |                                       |                    |
| 7           | Variable (Energy)  | 343                                   | 2                  |
| 8           | <b>Sub-total Exceptional Dispatch</b>                    | <b>343</b>                            |                    |
| 9           |  |                                       |                    |
| 10          | <b>Total RS</b>  |                                       |                    |
| 11          | Fixed (Capacity)   | 217                                   |                    |
| 12          | Variable (Energy)  | 343                                   |                    |
| 13          | <b>2018 RS Forecast</b>                                  | <b>560</b>                            |                    |
| 14          |  |                                       |                    |
| 15          | <b>RSBA November 2017 Ending Amount</b>                  | <b>174</b>                            |                    |
| 16          | <b>2018 RS Amount Before FFU (Line 13 Plus Line 15)</b>  | <b>734</b>                            |                    |
| 17          |  |                                       |                    |
| 18          | Franchise Fees @ 1.0277% (Line 16 X 1.0277%)             | 8                                     | 3                  |
| 19          |  |                                       |                    |
| 20          | Uncollectibles Rate @ .174% (Line 16 X 0.174%)           | 1                                     | 3                  |
| 21          |  |                                       |                    |
| 22          | <b>Total 2018 RS Revenue Requirement (Line 16+18+20)</b> | <b>743</b>                            |                    |

Footnotes

1 Although the HB 3&4 RMR Contract is not being extended into 2018, there is normally a two-month delay from the end of the RMR service month and the month that those RMR costs are due, in accordance with the CAISO's RMR Payment Calendar.

2 Exceptional Dispatch (Variable Energy) based on SDG&E forecast for 2018 using costs recorded in the most recent 12 months.

3 FFU is Franchise Fees and Uncollectibles.

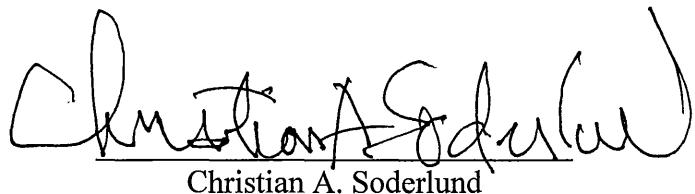

**SDG&E 2018 Costs, in \$000, Included in RS Rate**

| <u>Line No.</u> | <u>Unit(s) Owner</u>       | <u>Cost by Owner</u> |
|-----------------|----------------------------|----------------------|

## VERIFICATION

State of California      )  
County of San Diego    )

Christian A. Soderlund, being first duly sworn, on oath, says that he is Christian A. Soderlund, identified in the foregoing Prepared Direct Testimony, that he prepared or caused to be prepared such testimony on behalf of San Diego Gas & Electric Company; that the answers appearing therein are true to the best of his knowledge and belief, and that if asked the questions appearing therein, his answers would, under oath, be the same.

Christian A. Soderlund

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

State of California  
County of San Diego

Subscribed and sworn to (or affirmed) before me on this 11 day of December 2017,  
by Christian A. Soderlund, proved to me on the basis of satisfactory evidence  
to be the person(s) who appeared before me.

Linda M. Baker  
Notary Public

**UNITED STATES OF AMERICA  
BEFORE THE  
FEDERAL ENERGY REGULATORY COMMISSION**

San Diego Gas & Electric Company ) Docket No. ER

**PREPARED DIRECT TESTIMONY OF  
RAY C. UTAMA  
ON BEHALF OF  
SAN DIEGO GAS & ELECTRIC COMPANY**

**Q1. Please state your name, position and place of employment.**

A1. My name is Ray C. Utama, and I am a Senior Business / Economic Advisor in the Customer Pricing department for San Diego Gas & Electric Company (SDG&E). My business address is 8330 Century Park Court, San Diego, CA 92123-1530.

**Q2. Please summarize your education.**

A2. I received a Bachelor of Science degree in Accountancy, with a minor in Economics, from the San Diego State University in 2010. I am a Certified Public Accountant, licensed in the state of California.

**Q3. Please describe your professional experience and employment history.**

A3. In my current role, one of my responsibilities is to develop and analyze transmission revenue requirements, retail cost allocation, and rate design for SDG&E in proceedings before the Federal Energy Regulatory Commission (FERC or Commission). I have been employed by the Sempra Energy family of companies since June 2010, and have been employed in my current position with SDG&E since November 2016.

## I. ORGANIZATION OF TESTIMONY

#### **Q4. How is your testimony organized?**

25 A4. My testimony is organized into the following sections:

- 1       I.     Organization of Testimony;
- 2       II.    Introduction and Purpose of Testimony;
- 3       III.   Development of SDG&E's Reliability Services (RS) Rates;
- 4       IV.    Revisions to Appendix VII; and
- 5       V.     Summary

6       **II. INTRODUCTION AND PURPOSE OF TESTIMONY**

7       **Q5. What is the purpose of your testimony?**

8       A5. The purpose of my testimony is to present proposed 2018 Reliability Services (RS) retail  
9       and wholesale rates for SDG&E customers. In addition, my testimony presents proposed  
10      conforming revisions to SDG&E FERC Electric Tariff, Volume 11, Appendix VII  
11      (Appendix VII). Specifically, my testimony addresses the following:

- 12      1)     Describes the development of SDG&E's RS retail and wholesale rates based on  
13       the costs addressed in the prepared direct testimony of SDG&E witness Christian  
14       A. Soderlund, Exhibit No. SDG-1; and
- 15      2)     Supports the rate revisions in Appendix VII.

16      **III. DEVELOPMENT OF SDG&E'S RELIABILITY SERVICES (RS) RATES**

17      **A. RS Cost Components Used to Develop SDG&E's RS Revenue Requirement**

18      **Q6. Please describe how the RS cost components are used to develop RS revenue  
19       requirement components in the instant filing.**

20      A6. Statement BK (Derivation of RS Revenue Requirement), page 1, shown in Exhibit No.  
21       SDG-3, derives SDG&E's total RS Revenue Requirement of \$0.743 million. Lines 8 and  
22       9 show the demand and energy cost components of \$0.217 million and \$0.343 million,  
23       respectively, brought forward from Statement AH (Operation and Maintenance

1 Expenses), as shown in Exhibit No. SDG-3. Lines 2 and 3 show the demand and energy  
2 cost components \$0.151 million and \$0.023 million, respectively, of the RS Balancing  
3 Account under-collection of \$0.174 million. The balancing account reflects the RS  
4 revenue and RS expense activity for the period 12-months ending November 2017. Lines  
5 16 and 17 reflect SDG&E's applicable city franchise fee and uncollectible rates of \$0.008  
6 million and \$0.001 million, respectively, which need to be added to the RS costs. Line  
7 19 shows the total RS Revenue Requirement of \$0.743 million.

8 Statement BK, page 1, separates the RS Revenue Requirement into demand and energy  
9 cost components that are used for customer class allocation and rate design purposes.

10 **B. Allocation of RS Costs to SDG&E's Single Wholesale Customer**

11 **Q7. Please explain how you allocated the RS costs to SDG&E's single wholesale  
12 customer.**

13 A7. Consistent with the approach SDG&E took in last year's RS Revenue Requirement filing  
14 in Docket No. ER17-547 (accepted via Letter Order issued February 9, 2017), SDG&E  
15 allocated RS costs to its sole wholesale customer on the basis of energy. SDG&E used  
16 this method to remain consistent with the methodology used to charge customer class for  
17 High Voltage and Low Voltage Transmission service under the California Independent  
18 System Operator's (CAISO) Tariff. Under the CAISO tariff, wholesale customers are  
19 allocated and assigned fixed transmission costs using an energy allocation methodology.

20 **Q8. Please explain the process SDG&E used to allocate RS costs to SDG&E's single  
21 wholesale customer and the RS rate derivation applicable to this customer.**

22 A8. In Statement BL (Rate Design Information), page 2, shown in Exhibit No. SDG-3, I first  
23 calculated an average per kWh rate by dividing total RS Revenue Requirements of

\$0.743 million from Statement BK, demand plus energy costs, by the total energy sales for all of SDG&E's customers, adjusted by adding the distribution losses to reflect the data as if measured at the transmission level. I then multiplied this energy rate by SDG&E's single wholesale customer's annual energy sales to derive the amount of RS revenues allocated or applicable to the wholesale customer. Once I derived the RS revenues applicable to the wholesale customer, I subtracted this amount from the total RS revenues to derive revenues applicable to retail End Use Customers. This calculation is shown on Statement BL, page 2, at the bottom of the page. Once I subtracted the wholesale revenue from the total RS Revenue Requirement, I then separated the total RS Revenue Requirement in proportion to the total RS demand and energy costs, as shown at the bottom of page 2. I then carried forward total demand and energy to Statement BL, pages 3 and 4, and allocated the total to each customer class.

**C. Allocation of RS Costs to SDG&E's Retail Customer Classes**

**Q9. How is SDG&E proposing to allocate its RS costs to its retail customer classes?**

A9. SDG&E is proposing to allocate its RS costs consistent with the Order. Specifically, SDG&E has allocated its fixed or demand related RS costs to retail customers using a 12-coincident peak methodology (12-CP) as shown in Exhibit SDG-3, Statement BB (Allocation Demand & Capability Data). Statement BB, shows a 5-year historical average for each customer class.

This data is for the 5-year period ending December 31, 2015, using SDG&E's most current available information. The 5-year average is used to smooth out annual customer class contributions to system peak data to provide customer class stability. As additional yearly data is available, SDG&E will add the most current year of data and drop the

1           oldest data to maintain a running 5-year average. Once the 5-year average is developed,  
2           the 12-CP data, shown in Statement BB, is adjusted by adding the distribution losses for  
3           each customer class to reflect the data as if it were measured at the transmission level,  
4           consistent to what was done when developing the wholesale rate. Allocation of fixed  
5           costs using all data at the transmission level will ensure that customer classes are  
6           allocated demand costs on a consistent and equitable basis.

7           **Q10. How did you allocate RS energy costs?**

8           A10. Consistent with the Order, SDG&E allocated RS energy costs using a customer class  
9           energy allocation factor as shown in Exhibit No. SDG-3, Statement BD (Allocation  
10          Energy and Supporting Data), page 2.

11          **Q11. What cost statements show the results of allocating demand and energy costs to each  
12          customer class?**

13          A11. Statement BL, page 3, shows the amount of demand costs allocated to each customer  
14          class using the 12-CP demand allocation factor. Statement BL, page 4, shows the amount  
15          of energy costs allocated to each customer class using the energy allocation factor. The  
16          sum of the demand and energy costs allocated to each customer class is summarized on  
17          Statement BL, page 5, Column C. This total represents the total RS Revenue  
18          Requirement for each customer class.

19           **D. RS Retail Customer Class Rate Design and Customer Rate Increase Impacts**

20          **Q12. What rate design is SDG&E using to recover the RS revenue requirement in RS  
21          rates?**

22          A12. SDG&E is using the same rate design that FERC approved in its last RS filing in Docket  
23          No. ER17-547-000, which went into effect on January 1, 2017. The customer classes,

reflecting the current designations established by the California Public Utilities

Commission (CPUC), are as follows:

- **Residential Customers** – DR, DR-TOU, TOU-DR, EV-TOU, EV-TOU-2, DR-SES, DM, DS, DT, DT-RV, TOU-DR1 and TOU-DR2.
- **Small Commercial Customers** – A, A-TC, A-TOU, TOU-A, and UM.
- **Medium & Large Commercial/Industrial Customers** – AD, AY-TOU, AL-TOU, DG-R, A6-TOU, OL-TOU and the Vehicle Grid Integration (VGI) Pilot Program.
- **Agricultural** – PA, TOU-PA, and PA-T-1.
- **Street Lighting** – DWL, OL-1, OL-2, LS-1, LS-2, and LS-3.
- **Standby Service** – S.

**Q13. Is SDG&E proposing any rate design changes in this proceeding?**

A13. No. SDG&E is not proposing any changes in its rate design methodology for RS in this proceeding.

**Q14. What are the proposed retail and wholesale RS rates, by rate class, that SDG&E is proposing?**

A14. The proposed retail and wholesale rates are shown in Exhibit No. SDG-3, Statement BL, page 1.

**Q15. How did you develop the rates shown in Exhibit No. SDG-3, Statement BL?**

A15. On Statement BL, pages 7 through 14, I show the derivation of each rate. The first step in the rate design process is to take the revenue requirement for each customer class, as shown on page 5, Column C, and design the rates based on 2018 forecasted billing determinants to collect this applicable revenue requirement. The rate design on pages 7 through 14 are explained in the explanatory notes that are shown in the reference column

1 of each page. After designing each rate, I rounded each rate to the appropriate significant  
2 digit used by SDG&E for billing purposes. I then used the rounded rate to verify that it  
3 proved out to recover the revenue requirement of the applicable customer class would be  
4 recovered. This revenue proof on Column B of page 6 shows the difference between  
5 customer class revenue requirements and proof of revenues to ensure that SDG&E  
6 collects its entire RS revenue requirement.

7 **Q16. In deriving the RS rates for the Medium & Large Commercial/Industrial class,  
8 Schedule PA-T-1 of the Agricultural class, and Standby class, did you recognize the  
9 fact that these customers are served at different voltage levels?**

10 A16. Yes, I did. In recognition of the fact that customers in these rate classes are served at  
11 secondary, primary, and transmission voltage levels, SDG&E derived three voltage-  
12 differentiated RS demand rates for these classes. Exhibit No. SDG-3, Statement BL,  
13 pages 9, 12, and 14 show the derivation of these rates for the Medium & Large  
14 Commercial/Industrial class, Schedule PA-T-1 of the Agricultural class, and the Standby  
15 class, respectively.

16 **IV. REVISIONS TO APPENDIX VII**

17 **Q17. What revisions to SDG&E Appendix VII are you sponsoring?**

18 A17. I am sponsoring the revised RS rates in Appendix VII as follows:  
19     •     Appendix VII – Revised RS rates by End-Use-Customer class applicable to 2018  
20                 service.  
21     •     Appendix VII – Revised 2018 Wholesale RS Rate applicable to SDG&E's lone  
22                 wholesale customer.

1      **Q18. Are you including the complete Appendix VII at this time to incorporate these**  
2           **revisions?**

3      A18. Yes. Attachments No. 1 and No. 2 provide clean and redline versions of Appendix VII,  
4           respectively, reflecting the revisions discussed above.

5      **V. SUMMARY**

6      **Q19. What is your testimony recommending?**

7      A19. My testimony recommends that the Commission approve SDG&E's 2018 RS retail and  
8           wholesale rates as proposed.

9      **Q20. Does this conclude your testimony?**

10     A20. Yes, it does.

## VERIFICATION

State of California      )  
County of San Diego    )

Ray Utama, being first duly sworn, on oath, says that he is Ray Utama, identified in the foregoing Prepared Direct Testimony, that he prepared or caused to be prepared such testimony on behalf of San Diego Gas & Electric Company; that the answers appearing therein are true to the best of his knowledge and belief, and that if asked the questions appearing therein, his answers would, under oath, be the same.

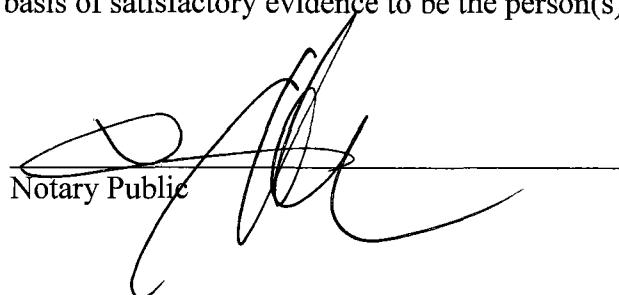

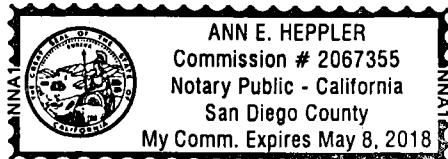

Ray Utama

### **2018 Reliability Service - Cost Statements**

### **Table of Contents**

- A. Statement AH - Operation and Maintenance Expenses**
  - Estimated RS costs forecast for 2018
- B. Statement BB - Allocation Demand & Capability Data**
  - Supports 12CP allocation factor and allocation of demand related RS costs.
- C. Statement BD - Allocation Energy and Supporting Data**
  - Supports the allocation of energy related RS costs
- D. Statement BG - Revenue Data to Reflect Changed Rates**
  - Monthly retail revenues showing proposed versus current rates during the rate effective period of January through December 2018
  - Monthly retail revenues using proposed rates during the Rate Effective Period of January through December 2018
- E. Statement BH - Revenue Data to Reflect Present Rates**
  - Monthly retail revenues using current rates during the Rate Effective Period of January through December 2018
- F. Statement BK -Derivation of RS Revenue Requirement**
- G. Statement BL -Rate Design Information**
  - Summary of proposed retail rates for Residential Customers, Small Commercial Customers, Medium-Large Commercial Customers, Streetlighting Customers, and Standby Customers
  - Allocation of demand related costs
  - Allocation of energy related costs
  - Summary of demand and energy costs
  - Proof of revenues
  - Individual customer class rate design for Residential Customers, Small Commercial Customers, Medium-Large Commercial Customer, Vehicle Grid Integration Pilot Customers, Street Lighting Customers and Standby Customers

<sup>1</sup> Reference data based on January 2017 through December 2017 forecasts.

<sup>2</sup> On-Peak Demand and Coincident Peak Demand (MW) for Standard Customers are for customers that have Maximum On-Peak Demand and Maximum Demand at the Time of System Peak rates based on SDG&E's on-peak period of 4-9 p.m. everyday year-round.

<sup>3</sup> On-Peak Demand and Coincident Peak Demand (MW) for Grandfathered Customers are for customers that have Maximum On-Peak Demand and Maximum Demand at the Time of System Peak rates based on SDG&E's previous on-peak period of 11 a.m. - 6 p.m. summer and 5-8 p.m. winter weekdays.

For Medium & Large Commercial/Industrial customers under California Public Utilities Commission tariff Schedule DG-R, the demand rate is applied to customers' monthly maximum demand.

<sup>1</sup> Demand rate applied to standby customers' contract demand.  
<sup>2</sup> Demand rate applied to standby customers' contract demand.

Notes:

Medium-Large commercial customers include the following California Public Utilities Commission (CPUC) tariffs: AD, AY-TOU, AL-TOU, AC-1TOU, DG-R, and OL-TOU.

<sup>2</sup> On lines 17 -19, the percentages shown in the reference column are based on ratios developed from the 12-CP Allocation factors demands shown on Statement BL, page 15, lines 30 - 32, column (d). In developing the ratios, the demand determinants were converted to transmission level by applying the following loss factors:

a) Secondary = 1.0470; b) Primary = 1.0110; and c) Transmission = 1.0065.

Notes:

<sup>1</sup> The RS rates for customers on California Public Utilities Commission (CPUC) agricultural tariffs Schedules PA and TOU-PA are 100% energy rates.

<sup>2</sup> The RS rate for customers on Schedules PA and TOU-PA is set equal to the total RS revenues allocated to the Agricultural class divided by the total billing determinants for the Agricultural class.

<sup>3</sup> Revenues Allocated to Schedule PA-T-1 equals the total Agricultural class RS revenues minus the annual revenues from Schedules PA and TOU-PA.

Notes:

<sup>1</sup> The RS rates for customers on California Public Utilities Commission (CPUC) agricultural tariff Schedules PA-T-1 reflect non-coincident demand charges and energy rates

<sup>2</sup> On lines 17-19, the percentages shown in the reference column are based on ratios developed from the 12-cP Allocation Factors demands shown on Statement BL, page 15, lines 39 - 41, column (d). In developing the ratios, the demand determinants were converted to transmission level by applying the following loss factors:

a) Secondary = 1.0470; b) Primary = 1.0110; and c) Transmission = 1.0065.

<sup>3</sup> Because there are no forecasted determinants for PA-T-1 at the Transmission Voltage Level, the rate differential between AL-TOU Primary and Transmission rates was used to determine the PA-T-1 Transmission Rate.

ATTESTATION RE SAN DIEGO GAS & ELECTRIC'S  
2018 Annual RSBA Rate Revisions  
(18 CFR § 35.13 (d)(7))

I, John D. Jenkins, attest that I am Vice President of Electric Engineering and Construction for San Diego Gas & Electric ("SDG&E"), and to the best of my knowledge and belief, the cost of service statements and supporting data submitted as part of this filing are true, accurate, and current representations of SDG&E's books and other corporate documents.

12/18/2017

Date

John D. Jenkins

ACKNOWLEDGEMENT

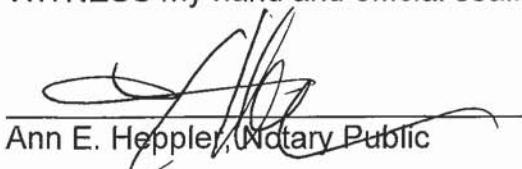

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

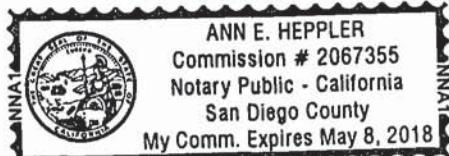

State of California  
County of San Diego )

On DECEMBER 18<sup>TH</sup>, 2017 before me, Ann E. Heppler, a Notary Public, personally appeared John D. Jenkins, who proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person, or the entity upon behalf of which the person acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

  
Ann E. Heppler, Notary Public

## **CERTIFICATE OF SERVICE**

I hereby certify that I have this day served an electronic copy of the foregoing document upon each person designated on the official service list compiled by the Secretary in Docket No. ER13-941-000 and ER17-547-000. In addition, I certify that I have also caused the foregoing to be served upon the following:

Arocles Aguilar (via Overnight Mail)  
General Counsel  
California Public Utilities Commission  
505 Van Ness Avenue  
San Francisco, CA 94102

Roger Collanton (via Overnight Mail)  
General Counsel  
California Independent System Operator Corporation  
250 Outcropping Way  
Folsom, CA 95630

Dated at San Diego, California, this 20th day of December, 2017.

/s/ Jenny Norin
