**SAN DIEGO GAS & ELECTRIC COMPANY'S
NOTICE OF REQUEST TO INCREASE ELECTRIC
RATES FOR IMPLEMENTING A NEW HIGH-POWER
ELECTRIC VEHICLE RATE
APPLICATION NO. A.19-07-006**

On July 03, 2019, San Diego Gas & Electric Company (SDG&E®) filed Application No. A.19-07-006 with the California Public Utilities Commission (CPUC) requesting approval to offer a new electric rate, EV-HP, for high-power electric vehicle charging and an associated bill discount before the new proposed rate can be implemented. SDG&E also requests to increase rates to fund the implementation of this bill discount. The total costs of the requested improvements and associated support are approximately \$1.1 million over two years. SDG&E requests that the approved amount be recorded in existing regulatory accounts and recovered annually in electric distribution rates starting January 1, 2021.

The proposed EV-HP rate is intended to be easy to understand and provide electricity at a competitive cost for Direct Current Fast Charging (DCFC) and Medium and Heavy-Duty (MD/HD) Electric Vehicle (EV) customers. The requested rate increase covers costs associated with implementing the proposed discount before SDG&E launches its new Customer Information System (CIS). Costs include (but are not limited to) the IT work and labor for calculating, applying, and tracking the bill discount until the new CIS is launched.

ESTIMATED IMPACT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E's application, a typical non-CARE residential customer living in both the inland and coastal climate zones and using 500 kilowatt-hours per month could see an average annual bill increase in 2021 of \$0.03, or 0.02%. A typical current monthly bill could increase from \$150.14 to \$150.17.

The charts shown on the next page illustrate the increase in rates that would result from CPUC approval of this application, compared to current rate levels. The percentages shown do not

necessarily reflect the changes that you may see on your bill. Changes in individual bills will also depend on how much electricity each customer uses.

CPUC PROCESS

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SDG&E's proposal, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Public Advocates Office (Cal PA) may review this application. Cal PA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe

service levels. Cal PA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. For more information about Cal PA, please call (415) 703-1584, email publicadvocatesoffice@cpuc.ca.gov or visit Cal PA's website at: www.publicadvocates.cpuc.ca.gov/.
