

# What is the California Climate Credit?

## A Message from the California Public Utilities Commission

This month\* your utility bill will include a credit identified as the “California Climate Credit.” Your household and millions of others throughout the state will receive this credit on your utility bills.

The California Climate Credit is part of California’s efforts to fight climate change. This credit is from the California Cap-and-Trade Program, which requires power plants, fuel providers, and large industrial facilities that emit greenhouse gases to buy carbon pollution allowances. The credit on your bill is designed to help utility customers during the transition to a low-carbon future.

In 2023, the CPUC temporarily authorized SDG&E® to distribute the California Climate Credits in February, March and October. Beginning in 2024, the California Climate Credits will revert to the original April and October distribution.

2024	APR	OCT
<b>Gas</b> CA Climate Credit	<b>\$58.98</b>	
<b>Electric</b> CA Climate Credit	<b>\$78.22</b>	\$78.22

For more information about the California Climate Credit, visit [www.cpuc.ca.gov/climatecredit](http://www.cpuc.ca.gov/climatecredit). For more information about additional programs that are funded by the California Cap-and-Trade Program to reduce carbon pollution, improve public health and the environment, and provide meaningful benefits to the most disadvantaged communities, visit [www.caclimateinvestments.ca.gov](http://www.caclimateinvestments.ca.gov).

*Continued on back*

*\*Billing periods vary by utility and may not always coincide with a calendar month. If you don't see the California Climate Credit in the bill that arrives this month, it will appear in the bill you receive next month. If you are an electric customer, the electric credit will appear as a line item on the electric portion of your bill during the months of distribution. If you are a gas customer, the gas credit will appear as a line item on the gas portion of your bill during the month of distribution. If you receive both electric and gas service, you will see the electric and gas credits on the respective portions of your utility bill during the months of distribution.*

The CPUC regulates privately owned electric and natural gas companies and serves the public interest by protecting consumers and ensuring the provision of safe, reliable utility service and infrastructure at reasonable rates, with a commitment to environmental enhancement and a healthy California economy. For more information about our work visit [www.cpuc.ca.gov](http://www.cpuc.ca.gov). If you have a question or complaint concerning a privately owned utility, call 1-800-649-7570 or visit [www.cpuc.ca.gov/utilitycomplaint](http://www.cpuc.ca.gov/utilitycomplaint).
