IV. WITNESS QUALIFICATIONS..... 4

**PREPARED SUPPLEMENTAL TESTIMONY OF
JOSUE S. MONDRAGON**

I. INTRODUCTION AND PURPOSE

The purpose of my testimony is to provide the information the Administrative Law Judge (“ALJ”) requested in Section 2 (“Seasonal Baseline Adjustment”) of the July 26, 2019 Ruling Directing San Diego Gas & Electric Company [“SDG&E”] to File/Serve Supplemental Information (“July 26, 2019 Ruling”). The July 26, 2019 Ruling (at p. 2) states that “Senate Bill (SB) 711 (Stats. 2017, Chap. 467) requires the [California Public Utilities] Commission to make efforts to minimize bill volatility for residential customers, explicitly authorizing the Commission to do this by modifying the length of baseline seasons or defining additional baseline seasons.” As such, the July 26, 2019 Ruling (at p. 2) directs SDG&E to “serve testimony that enables the Commission to consider possible modifications to baseline seasons to minimize bill volatility . . .”

II. REQUESTED INFORMATION

A. Attachments A and B

Section 2 of the July 26, 2019 Ruling (at pp. 2-3) directs SDG&E to provide information regarding two specific issues:

1. Baseline amounts and average residential consumption, by month, of (1) basic service customers and (2) all-electric customers, in each climatic zone, in the same usage increments as those used in Attachment K and L workpapers. Provide this information based on the most recent five years for which such data is available.
2. Average bills, by month, of (1) basic service customers and (2) all-electric customers, in each climatic zone, in the same usage increments as those used in SDG&E’s bill impact workpapers (Attachments K and L). Provide this information based on the most recent five years for which such data is available.

Attachments A and B provide the information requested in Items 1 and 2 respectively. The information provided is based on the most recent available data from 2013 through 2017 and is averaged by month across these five years. For the purposes of this analysis, baseline is defined as

1 “a quantity of electricity or gas allocated by the commission for residential customers based on from
2 50 to 60 percent of average residential consumption of these commodities, except that, for residential
3 gas customers and for all-electric residential customers, the baseline quantity shall be established at
4 from 60 to 70 percent of average residential consumption during the winter heating season.”¹

5 **B. Attachment C**

6 Residential baseline allowances are a single kWh per day value for residential customers that
7 varies by season (SDG&E currently has two seasons - summer and winter), climate zone (SDG&E
8 currently has four climate zones - Coastal, Inland, Mountain, Desert) and service type (Basic and
9 All-Electric).² A re-examination of baseline seasons requires an examination of baseline data at the
10 monthly level as requested in the July 26, 2019 Ruling. However, the July 26, 2019 Ruling further
11 requests that the monthly data be presented in usage increments consistent with those used in
12 Attachments K and L. This results in the further segmentation of the monthly data for SDG&E’s
13 residential customers in over 20 usage increments beyond the segmentation by climate zone and
14 service type. The aggregate monthly data for residential customers segmented by climate zone and
15 service type continues to be necessary to inform a re-examination of baseline seasons, which
16 SDG&E provides in Attachment C.

17 **III. SDG&E’S ADDITIONAL THOUGHTS ON SEASONAL BASELINE ISSUES**

18 SDG&E’s current baseline allowances were approved in Decision (“D.”) 15-07-001,³ which
19 included approval to move baseline allowances to the legislative lower bound of 50% for all service
20 types and climate zones (with the exception of 60% for All-Electric service during the winter season
21 and with a 5-year transition path for all-electric customers), and the redefinition of Tier 1 usage to

¹ California Public Utilities Code § 739 (a)(1).

² See Special Condition 3 on Sheet 5 of Schedule DR: Residential Service found at the following link
http://regarchive.sdge.com/tm2/pdf/ELEC_ELEC-SCHEDS_DR.pdf

³ D.15-07-001 at 296.

1 include up to 130% of baseline. Implementation began in 2016⁴ and SDG&E is currently in Year 3
2 of the 5-year transition for all-electric customers. Additionally, SDG&E's current climate zone
3 definitions were approved by the Commission in 2002 pursuant to D.02-05-010. In D.02-05-010,
4 the Commission approved a Petition for Modification ("PFM") SDG&E filed to create a new Inland
5 climate zone in order to provide bill relief to certain "inland" electric customers by increasing their
6 baseline. Prior to this modification, Coastal and Inland were a single climate zone.

7 If the Commission wishes to conduct a review of seasonal baseline issues for SDG&E's
8 residential customers, SDG&E believes that the Commission may wish to also include a broader re-
9 examination of climate zone definitions. Climate zones in SDG&E's service territory have not been
10 reviewed for over 15 years, and doing so in this or a separate proceeding will allow SDG&E and
11 other parties to review the current climate zones and assess whether an update is necessary based on
12 up to date information.

13 This concludes my prepared supplemental testimony.

⁴ SDG&E Advice Letter 2861-E, which the Commission approved in Resolution E-4787.

1 **IV. WITNESS QUALIFICATIONS**

2 My name is Josue S. Mondragon. My business address is 8306 Century Park Court, San
3 Diego, California, 92123. I am employed by San Diego Gas & Electric Company as the Load
4 Research Supervisor within the Energy Research and Analysis Department in Customer Services.
5 My primary responsibility is the study and research of customer electric energy usage.

6 I have held my current position since 2015. Prior to this, I have held various roles of
7 increasing responsibilities in the Load Research area since 2003. I received a Bachelor of Arts
8 degree from Amherst College in 1997.

9 I have not previously testified before the California Public Utilities Commission.
