**PREPARED DIRECT TESTIMONY
OF NORMA G. JASSO
CHAPTER 6**

I. OVERVIEW AND PURPOSE

The purpose of my direct testimony on behalf of San Diego Gas & Electric Company (“SDG&E”) is to discuss the proposed balancing accounts related to SDG&E’s Medium-Duty and Heavy-Duty Electric Vehicle Charging Infrastructure Program (“MD/HD EV Charging Infrastructure Program” or “Program”) and Vehicle to Grid Electric School Bus Pilot (“V2G Pilot”). SDG&E proposes to record revenue and costs associated with the MD/HD EV Charging Infrastructure Program and V2G Pilot in balancing accounts until the program and pilot are in service and submitted as part of base margin revenue requirement in a future General Rate Case (“GRC”).

II. COST RECOVERY

SDG&E requests authority to establish one-way balancing accounts to record the authorized revenue requirement and costs associated with (1) the MD/HD EV Charging Infrastructure Program (see direct testimony of Hannon J. Rasool (Chapter 2)); and (2) the V2G Pilot (see direct testimony of David M. Goldgraben (Chapter 3)). SDG&E proposes to recover costs from all electric customer classes through distribution rates for both the Program and the Pilot.

SDG&E proposes to establish the Medium-Duty / Heavy-Duty Electric Vehicle Balancing Account (“MDHDBA”) to record the authorized revenue requirement and incremental costs resulting from the implementation of the MD/HD EV Charging Infrastructure Program. A separate Vehicle to Grid Balancing Account (“V2GBA”) would be established for the V2G Pilot. SDG&E proposes to record revenues associated with the authorized revenue requirement as well as capital-related costs (*i.e.*, depreciation, taxes and return) and operating and maintenance

1 incremental costs in the above balancing accounts. Details of the revenue requirement are
2 presented in the direct testimony of Gregory D. Shimansky (Chapter 5).

3 The disposition of the MDHDBA and V2GBA will be addressed in SDG&E's Annual
4 Electric Regulatory Account Update filing at the end of the program and pilot. The annual filing
5 is scheduled to be submitted as a Tier 2 advice letter in October of each year. In this Tier 2
6 advice letter, SDG&E presents the forecasted year-end balances of certain regulatory accounts
7 for amortization in rates effective January 1 of the following year. SDG&E proposes to address
8 the final disposition and closing of these accounts in a future GRC.

9 This concludes my prepared direct testimony.

10

1 **III. WITNESS QUALIFICATIONS**

2 My name is Norma G. Jasso. I am employed by SDG&E, as the Regulatory Accounts
3 Analysis Manager in the Financial Analysis Department. My business address is 8330 Century
4 Park Court, San Diego, California 92123. My current responsibilities include managing the
5 process for the development, implementation, and analysis of regulatory balancing and
6 memorandum accounts. I assumed my current position in July 2013.

7 I received a Bachelors of Business Administration degree with an emphasis in
8 Accounting from the University of San Diego in 1981. I earned a Masters of Business
9 Administration from the University of Phoenix in 1996. I have been employed with SDG&E and
10 Sempra Energy since December 1997. Other positions I have held include Sundry Services
11 Policy and Compliance Project Manager II, Affiliate Compliance Manager, Senior Business
12 Analyst, and Accounting Systems Analyst.

13 I have previously testified before the California Public Utilities Commission.
