

**SAN DIEGO GAS & ELECTRIC COMPANY
SOUTHERN CALIFORNIA GAS COMPANY**
**APPLICATION REGARDING FEASIBILITY OF INCORPORATING
ADVANCED METER DATA INTO THE CORE BALANCING PROCESS
(A.17-10-002)**

**(6th DATA REQUEST FROM SOUTHERN CALIFORNIA GENERATION COALITION AND
INDICATED SHIPPERS)**

QUESTION 6.1:

Please provide for the period, January 1, 2016 through April 30, 2018, the percentage difference for each day between the total of all noncore customers' recorded daily usage and the total of all noncore customers' scheduled daily nominations as of Intraday Cycle 4 with the date for each difference identified.

RESPONSE 6.1:

Please see the attached. The percentage error calculation is $(\text{Scheduled Volumes} - \text{Usage}) / \text{Usage}$. The data used to calculate the percentage errors is operational data from SoCalGas' Electronic Bulletin Board, SoCalGas ENVOY®.
