SUMMARY

San Diego Gas & Electric (SDG&E) proposes \$2,198,718,000 for its Test Year (TY) 2019 General Rate Case (GRC) revenue requirement. The electric revenue requirement is \$1,763,482,000 and the gas revenue requirement is \$435,236,000.

1 **SECOND REVISED SDG&E DIRECT TESTIMONY OF RYAN HOM**
2 **(SUMMARY OF EARNINGS)**

3 **I. INTRODUCTION**

4 My testimony adopts the Summary of Earnings revised direct testimony of Khai Nguyen
5 (Exhibit SDG&E-42-R) and further revises it herein in this second revised version.

6 Pursuant to the Assigned Commissioner's Scoping Memorandum and Ruling issued on
7 January 29, 2018 (Scoping Memo), this exhibit has been revised to reflect the impact of the Tax
8 Cuts and Jobs Act (TCJA) on the SDG&E TY 2019 General Rate Case. The TCJA was signed
9 into federal law on December 22, 2017 and is discussed in the testimony of the Taxes witness
10 Ragan Reeves (Exhibit SDG&E-35-2R), served concurrently with this exhibit. A roadmap of
11 this TCJA-related submission and impacts on other witnesses' areas is provided in the Case
12 Management Exhibit SCG-49/SDG&E-49. Incorporating the result of these changes into
13 SDG&E's revenue requirement request would result in a net decrease in the overall revenue
14 requirement of \$57.744M.¹

15 However, at this time, SDG&E is proposing to maintain the revenue requirement
16 requested at the initial Application level.² See Case Management Exhibit SCG-49/SDG&E-49
17 for more detail. To accommodate the potential impacts of the expected proposal, SDG&E will
18 update its Summary of Earnings tables in this chapter (and in any other affected testimonies)
19 after the proposal is finalized.

¹ Throughout the April 6, 2018 TCJA-related submission by impacted witnesses' testimonies, SDG&E maintained the comparison point of "2018 Expected" consistent with those witnesses' prior testimony exhibits served in this proceeding on October 6 and December 20, 2017. Maintaining the "2018 expected" comparison point isolates the impact of the TCJA. In my testimony herein, Appendix C has been added to show the impact of the updated Results of Operations Report testimony of Ryan Hom (Present Rate Revenues, Ex. SDG&E-48) served on January 16, 2018 and the TCJA on the 2019 revenue requirement increase over 2018 authorized. In Appendix C, the expected 2018 revenue requirement has been revised to reflect actual 2018 revenue requirement (effective January 1, 2018).

² An offsetting adjustment (\$66.199 million) to reverse the impact of TCJA has been made to workgroup 1AG009-000 (Administrative and General).

1 SDG&E forecasted expenses, taxes, depreciation, return, and rate base are in tables KN-1
 2 through 48 (see Appendix A). The resulting 2019 combined gas and electric revenue
 3 requirement of \$2,198,718,000 is shown in Table KN-1, Line 3. Tables KN-2 and KN-5 provide
 4 separate summaries of earnings data for the Electric and Gas Departments, respectively. These
 5 tables summarize TY 2019 revenue and costs at both present and proposed rates. The revenue at
 6 present rates is the authorized base margin revenue effective as of January 1, 2018. See the
 7 Present and Proposed Electric Revenues & Rates testimony of Jeffrey Shaughnessy (Exhibit
 8 SDG&E-46-2R) for details on electric revenues at present and proposed rates and the Present and
 9 Proposed Gas Transportation Revenues & Rates of Sharim Chaudhury (Exhibit SDG&E-45-2R)
 10 for details on gas revenues at present and proposed rates.

11 SDG&E forecasts these expenditures to continue to safely provide utility service to
 12 customers, to maintain adequate system reliability, to provide responsive customer services and
 13 to comply with governmental regulations and orders applicable to SDG&E, as discussed by
 14 various witnesses. SDG&E also seeks to recover costs for taxes and depreciation associated with
 15 plant investments. The Tax and Depreciation testimonies are sponsored by Ragan Reeves
 16 (Exhibit SDG&E-35-2R) and Matthew Vanderbilt (Exhibit SDG&E-34), respectively. In
 17 addition, this request includes revenue necessary to compensate investors for their capital
 18 investment in the utility.

19 **II. SCOPE**

20 Accumulated balances for regulatory accounts (balancing, tracking, or memorandum)
 21 included in the Regulatory Accounts testimony of Norma Jasso (Exhibit SDG&E-41) are not
 22 included in the TY 2019 revenue requirement described in my testimony. There are no deferred

1 revenues included in the TY 2019 estimates. Commodity costs for gas and electricity are not
2 addressed in the GRC. Also, SDG&E is not seeking the recovery of costs under the jurisdiction
3 of the Federal Energy Regulatory Commission (FERC) in the GRC.

4 SDG&E owns a 20% share of the San Onofre Nuclear Generating Station (SONGS). On
5 June 7, 2013, SCE announced the permanent retirement of Units 2 & 3 at SONGS. SONGS
6 costs, except for Marine Mitigation and workers' compensation from the Master Insurance
7 Program (MIP), have been removed from SCE's 2018 GRC. SDG&E's total revenue
8 requirement request will consist of SDG&E's 20% share of the costs associated with the Marine
9 Mitigation and MIP workers' compensation costs submitted by Southern California Edison
10 Company (SCE) in its TY 2018 GRC filing. Please see the Electric Generation & SONGS
11 testimony of Daniel Baerman (Exhibit SDG&E-16) for SONGS related costs and Ms. Jasso's
12 testimony (Ex. SDG&E-41) for details on the regulatory treatment pertaining to SONGS.

13 **III. RESULTS OF OPERATIONS (RO) SUMMARY TABLES**

14 The RO calculation compiles all of the cost estimates put before the Commission in this
15 proceeding into an income statement format to estimate the amount of revenue needed for
16 SDG&E to earn an authorized rate of return on its investment.

17 SDG&E provides electric service under the jurisdiction of two regulatory commissions:
18 this Commission, which regulates electric sales to retail ratepayers in the state of California, and
19 the FERC, which regulates electric transmission. SDG&E is presenting this application in an
20 unbundled format consistent with its most recent GRC Decision (D.) 13-05-051. All common
21 costs have been separated into Unbundled Cost Categories. SDG&E provides gas service only
22 under the jurisdiction of this Commission.

23 SDG&E also wholly owns and operates four electric generation facilities: Palomar,
24 Miramar, Cuyamaca, and Desert Star. Cost for these generation facilities are included in the
25 Electric Department summaries. SDG&E's TY 2019 forecast also assumes that, pursuant to
26 D.16-09-021, SDG&E will acquire ownership of the Otay Mesa Energy Center (OMEC), which
27 Calpine currently owns and operates and which currently is the subject of a Power Purchase
28 Tolling Agreement (PPTA) with SDG&E. Please see Mr. Baerman's testimony (Ex. SDG&E-
29 16) for O&M and capital costs. The 2019 Generation Revenue requirement is \$273,945,000 and
30 detailed in Table KN-4 of my testimony.

1 **IV. ELEMENTS OF THE RO CALCULATION**

2 **A. Revenue Requirement**

3 Total operations and maintenance (O&M) and capital-related costs necessary to support
4 SDG&E's rate base is called a revenue requirement. The revenue requirement is collected in two
5 components: 1) miscellaneous revenues, discussed below, and 2) base margin. The electric base
6 margin portion of the revenue requirement is collected in electric distribution and generation
7 revenues, and the gas base margin is collected in gas transportation service revenues. Both base
8 margins are collected from SDG&E's ratepayers.

9 **B. Miscellaneous Revenues**

10 Miscellaneous revenues consist of fees and revenues collected by SDG&E for the
11 provision of specific products or services from non-rate sources and any revenues returned to the
12 ratepayers pursuant to previous Commission decisions.³ Miscellaneous revenues reduce the
13 amount of electric and gas sales revenues to be collected from customers for electric and gas
14 utility services (*i.e.*, base margin), as explained by the Miscellaneous Revenues testimony of Eric
15 Dalton (Exhibit SDG&E-40-2R).

16 **C. O&M Expense Estimates**

17 The testimonies addressing operating expenses in this Application describe the estimating
18 methods used and the significant events reflected in forecasts for each expense area. This
19 Application uses cost center structures and project structures consistent with internal budgeting
20 methods in the development of the test year revenue requirement. All summary tables for O&M
21 are presented using a cost center format.⁴

22 For purposes of calculating overheads and escalation, operating expenses are categorized
23 in the RO model calculations between labor expense and materials and services (also known as
24 non-labor) expense.

25 O&M expense estimates for each category of expense are summarized for the 2016
26 recorded and 2019 estimated year in constant 2016 dollars. As described in the Cost Escalation
27 testimony of Scott Wilder (Exhibit SDG&E-39), labor and non-labor escalation rates were

³ D.13-05-010 at 955.

⁴ D.08-07-046, Ordering Paragraph (OP) 22.

1 applied to the 2016 constant dollar estimates to determine the estimated test year O&M expense
2 in 2019 dollar terms. Certain non-labor O&M expense estimates are not subject to escalation
3 rates and are presented in nominal dollars. These costs are referred throughout this Application
4 as “Non-Standard Escalation” or NSE. An example of NSE costs is certain contractual costs set
5 forth by existing agreements.

6 O&M expense forecasts are presented in testimonies in two groupings: Shared Services
7 (SS) and Non-Shared Services (NSS). Shared Services (SS) are O&M expenses incurred by
8 SDG&E and billed to Southern California Gas Company (SoCalGas) or Corporate Center, as the
9 entity or entities receiving those services (or SS can be billed to SDG&E if SoCalGas incurs
10 O&M expenses for the benefit of SDG&E). The second group of O&M expenses is NSS, which
11 are expenses incurred by SDG&E that are not subject to billing. Costs have been separated in
12 this manner so that cross-company billings include appropriate overheads and are properly
13 allocated. The O&M SS billing policy and process are explained in the Shared Services &
14 Shared Assets Billing, Segmentation & Capital Reassignments testimony of James Vanderhye
15 (Exhibit SDG&E-32-2R). In the Summary of Earnings tables of my testimony, O&M expenses
16 summarized on Line 21 of Table KN-1 include SS and NSS.⁵ Details of NSS and SS costs are
17 found in Table KN-6.

18 As stated earlier, SDG&E expense forecasts are stated in cost center format.⁶ For
19 purposes of allocating O&M costs between the electric distribution, electric generation, and gas
20 unbundled cost categories, between expense or capital, and between CPUC or FERC
21 jurisdictions, a conversion of cost center forecasts to FERC Uniform System of Accounts format
22 is performed. The translation is based on 2016 recorded FERC settlements with adjustments
23 made by various witnesses to reflect 2019 forecasted O&M activities. The finalized cost center
24 factors ensure O&M cost center forecasts are appropriately mapped to FERC accounts to
25 produce the proper basis to apply segmentation and reassignment ratios. Please see Appendix B
26 for a Cost Center to FERC mapping which provides the ratio of each cost center’s O&M forecast

⁵ As discussed in the Accounting and Finance/Legal/Regulatory Affairs/External Affairs testimony of Sandra Hrna (Exhibit SDG&E-31), Meals and Entertainment has been excluded from the TY2019 revenue requirement. A topside adjustment of \$442,000 (2019\$) was reduced out of cost center 1AG009-000 to reflect the exclusion.

⁶ D.08-07-046, OP 22.

1 allocation to a FERC account. Please see the testimony of Mr. Vanderhye (Ex. SDG&E-32-2R)
2 for details on the development of reassignment and segmentation factors.

3 **D. Capital-Related Costs**

4 Capital-related costs include depreciation, income taxes, ad valorem taxes, and return on
5 investment. The driver of these costs is the capital investment in utility rate base. Capital
6 investments forecasts are sponsored by various SDG&E witnesses and the utility rate base total
7 is sponsored by the Rate Base testimony of R. Craig Gentes (Exhibit SDG&E-33-2R).

8 **E. Rate of Return**

9 The TY 2019 revenues at Proposed Rates reflect an authorized rate of return of 7.55%
10 based on 10.2% return on equity (ROE).⁷

11 **V. RECORDED DATA**

12 Adjustments have been made to the 2016 O&M data to exclude all revenues and
13 expenses that are recovered through separate filings before the Commission or the FERC.
14 Examples of excluded costs are Demand Side Management (DSM), Energy Savings Assistance
15 Program (ESAP), and California Alternate Rates for Energy (CARE) costs.

16 **VI. RO MODEL ENHANCEMENTS**

17 There were no major modifications made to the RO model since the 2016 GRC filing.

19 This concludes my prepared direct testimony.

⁷ SDG&E Advice Letter 3120-E/2611-G “Update to Authorized Rate of Return on Ratebase Pursuant to Decision (D.) 17-07-005, Effective January 1, 2018,” approved on October 26, 2017.

<i>SDG&E-42</i>	<i>Ryan Hom</i>	<i>RH-1</i>	<i>1</i>	<i>Replaced “Khai Nguyen” with “RYAN HOM”</i>
<i>SDG&E-42</i>	<i>Ryan Hom</i>	<i>RH-1</i>	<i>4</i>	<i>Added “My testimony adopts the Summary of Earnings revised direct testimony of Khai Nguyen (Exhibit SDG&E-42-R) and further revises it herein in this second revised version.”</i>
<i>SDG&E-42</i>	<i>Ryan Hom</i>	<i>RH-1</i>	<i>6</i>	<i>Replaced “SDG&E has incorporated into its December 2017 revised testimony and workpapers a number of corrections and revisions that were not feasible to submit in time with the initial Application, or were identified after the Application’s submission,...” with “Pursuant to the Assigned Commissioner’s Scoping Memorandum and Ruling issued on January 29, 2018 (Scoping Memo), this exhibit has been revised to reflect the impact of the Tax Cuts and Jobs Act (TCJA) on the SDG&E TY 2019 General Rate Case. The TCJA was signed into federal law on December 22, 2017 and is discussed in the testimony of the Taxes witness Ragan Reeves (Exhibit SDG&E-35-2R), served concurrently with this exhibit. A roadmap of this TCJA-related submission and impacts on other witnesses’ areas is provided in the Case Management Exhibit SCG-49/SDG&E-49. Incorporating the result of these changes into SDG&E’s revenue requirement request would result in a net decrease in the overall revenue requirement of \$57.744M. However, at this time, SDG&E is proposing to maintain the revenue requirement requested at the initial Application level.² See Case Management Exhibit SCG-49/SDG&E-49 for more detail. To accommodate the potential impacts of the expected proposal, SDG&E will update its Summary of Earnings tables in this chapter (and in any other affected testimonies) after</i>

				<i>the proposal is finalized.”</i>
<i>SDG&E-42</i>	<i>Ryan Hom</i>	<i>RH-1</i>		<i>Added Footnote 1 “Throughout the April 6, 2018 TCJA-related submission by impacted witnesses’ testimonies, SDG&E maintained the comparison point of “2018 Expected” consistent with those witnesses’ prior testimony exhibits served in this proceeding on October 6 and December 20, 2017. Maintaining the “2018 expected” comparison point isolates the impact of the TCJA. In my testimony herein, Appendix C has been added to show the impact of the updated Results of Operations Report testimony of Ryan Hom (Present Rate Revenues, Ex. SDG&E-48) served on January 16, 2018 and the TCJA on the 2019 revenue requirement increase over 2018 authorized. In Appendix C, the expected 2018 revenue requirement has been revised to reflect actual 2018 revenue requirement (effective January 1, 2018).”</i>
<i>SDG&E-42</i>	<i>Ryan Hom</i>	<i>RH-1</i>		<i>Added Footnote 2 “An offsetting adjustment (\$66.199 million) to reverse the impact of TCJA has been made to workgroup 1AG009-000 (Administrative and General)</i>
