**HOW DOES THE REST OF THIS PROCESS WORK?**

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SDG&E's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email [PublicAdvocatesOffice@cpuc.ca.gov](mailto:PublicAdvocatesOffice@cpuc.ca.gov) or visit [PublicAdvocates.cpuc.ca.gov](http://PublicAdvocates.cpuc.ca.gov).

## NOTIFICATION OF APPLICATION SAN DIEGO GAS & ELECTRIC COMPANY'S REQUEST TO INCREASE ELECTRIC RATES APPLICATION A.22-05-003

### WHY AM I RECEIVING THIS NOTICE?

On May 2, 2022, San Diego Gas & Electric Company (SDG&E®) filed its application requesting approval for an overall increase in rates for funding of the 2023-2027 Demand Response (DR) portfolio (A.22-05-003) with the California Public Utilities Commission (CPUC).

If approved, these programs would be implemented over a five-year program cycle of 2023-2027. SDG&E is requesting the authority to spend up to \$172.3 million during the 2023-2027 program cycle to design and implement a portfolio of DR programs.<sup>1</sup> SDG&E is also requesting the funds spent, up to the maximum approved by the CPUC, be recorded to existing regulatory accounts and recovered annually in electric distribution rates starting January 1, 2023.

### WHY IS SDG&E REQUESTING THIS RATE INCREASE?

Demand Response programs motivate electric customers through financial incentives to reduce their electric usage during high-demand periods and/or shift electric usage to other periods when electric demand is lower. Reducing peak electric loads helps improve reliability of the electric system and helps keep costs down by limiting the need to purchase electricity when prices spike.

### HOW COULD THIS AFFECT MY MONTHLY ELECTRIC RATES?

The current and illustrative electric rates based on SDG&E's forecasted budget for years 2023-2027 are noted in the tables below. SDG&E's forecasted budget is \$15.8 million in 2023, \$22.8 million in 2024, \$23.3 million in 2025, \$56.6 million in 2026 and \$53.8 million in 2027. The tables below present the incremental impact of SDG&E's forecasted budget for years 2023-2027 compared to current effective rates for proposed 2023 and year-over-year impacts thereafter.<sup>2</sup>

<sup>1</sup> This amount excludes Franchise Fees and Uncollectables (FF&U).

<sup>2</sup> Current rates effective 1/1/2022 per Advice Letters (ALs) 3928-E, 3928-E-A, 3928-E-B.
