**Re: Energy Division Data Request**  
**Responses Due: October 5, 2018**

### **INSTRUCTIONS**

In both the TOU opt-in and default pilots, SDG&E has identified certain customers as “structural non-benefitters”, i.e. customers who historically have higher usage during the peak hours.

At the end of each pilot period, SDG&E will calculate the bill for these customers to credit them for the difference between TOU and tiered rates. (Bill Protection)

Energy Division is interested in collecting certain information on the above specified population.

## **DATA REQUESTS**

Energy Division is requesting the following information on the group of “structural non-benefitters customers in the **Default pilot** who are “**Non CARE/FERA**” in the “**Hot Climate Zone**” customers:

### Customer Identification

1. Customer ID
2. Customer’s Zip Code

### Information used to determine a customer’s ‘structural non-benefiter’ status

1. Customer’s load profile prior to TOU pilot (kWh by hour)
2. Customer’s monthly bill

### Information on default pilot usage

1. Customer’s usage in TOU pilot
2. Customer’s TOU monthly bill
3. Customer’s ‘shadow’ tiered bill amount

### Demographic information (to the extent that PG&E possesses such information)

1. # of people in household,
2. household income,
3. type of residence,
4. smart device usage

The respond to this request should be provided in the **spread sheet format**, a sample format is provided to you with the data request.
