

**A.19-03-002 – SDG&E GRC Phase 2
SDG&E Data Request #2 – TURN
Please respond by April 24, 2020**

1. Pages 10-11 of TURN's Prepared Testimony of Jaime McGovern propose the use of the "Basic Customer method" instead of "TSM method" to calculate marginal distribution customer costs. Has the Commission adopted the use of the "Basic Customer method" to determine marginal distribution customer costs in any proceeding? If yes, please identify each proceeding in which the Commission has approved the use of the "Basic Customer method" to determine marginal distribution customer costs.

End Request

TURN Response:

TURN has not researched Commission decisions for purposes of responding to this DR, but may do so for purposes of preparing our briefs.
